

JSPS Bilateral Joint Research Projects/Seminars FY2019 CALL FOR PROPOSALS

Notes:

- (1) This “FY2019 Call for Proposals” is an English translation of the official announcement in Japanese. Applicants should observe the accompanying Japanese Application Guidelines (http://www.jsps.go.jp/j-bilat/semina/shinsei_bosyu.html). If there should be any differences between the original Call for Proposals in Japanese and its translation into English, the original Japanese text is valid.
- (2) This “FY2019 Call for Proposals” provides the application guidelines on the JSPS side. Please consult with JSPS’s counterpart organizations about application guidelines for counterpart countries. (Please refer to “15. Instructions for individual countries” for their contact information.)
- (3) As application for this program and for a grant is done through your affiliated institution, for the more detailed Japanese applications guidelines, please inquire at your institution’s administration office.

1. Program outline

The Japan Society for the Promotion of Science (JSPS) carries out bilateral cooperative programs between Japan and counterpart countries based on agreements concluded with academies, research councils and other science-promotion organizations in those countries.

The aim of these programs is to form sustained networks evolved from individual scientist exchanges including young scientists. JSPS provides financial support to Japanese scientists implementing such bilateral joint research projects and seminars between research teams from Japan and counterpart countries.

The Bilateral Joint Research Projects/Seminars is comprised of two components: (A) Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions and (B) Open Partnership Joint Research Projects/Seminars. Open Partnership Joint Research Projects/Seminars provides Japanese researchers an opportunity to conduct research/seminar with researchers around the world who reside in a country that has diplomatic relations with Japan. (JSPS also treats researchers who reside in Taiwan and Palestine in this manner.)

JSPS receives applications via its online application system. Please refer to “6. Application procedure at JSPS”.

2. Counterpart countries in this application round

Notice (related “A” and “B”)

1. Each applicant is allowed to submit only one application per counterpart country.
2. While all counterpart countries eligible for “A. Bilateral Joint Research Projects/Seminars with JSPS’s

Counterpart Institutions” are also eligible for “B. Open Partnership Joint Research Projects/Seminars”, we encourage that applications to be submitted towards “A. Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions”.

- Applicants who will already be conducting a Bilateral Joint Research Project/Seminar on the starting date of the projects/seminars in this application round may not apply for a Joint Research Project/Seminar with the same counterpart country.

A. Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions

Africa	Egypt	Ministry of Scientific Research (MOSR)/ Science and Technology Development Fund (STDF)	p.14
	Kenya	National Commision for Science, Technology and Innovation (NACOSTI)	p.14
	South Africa	National Research Foundation (NRF)	p.15
	Tunisia	Ministry of Higher Education and Scientific Research (MHESR)	p.15
Asia/Middle East	China	Chinese Academy of Sciences (CAS) Chinese Academy of Social Sciences (CASS) Ministry of Education (MOE) National Natural Science Foundation of China (NSFC)	p.16 p.17 p.17 p.18
	India	Department of Science and Technology (DST) Indian Council of Historical Research (ICHR) Indian Council of Social Science Research (ICSSR)	p.18 p.19 p.20
	Indonesia	Directorate General of Resources for Science, Technology, and Higher Education (DG-RSTHE) Indonesian Institute of Sciences (LIPI)	p.20 p.21
	Israel	Israel Science Foundation (ISF)	p.21
	Korea	National Research Foundation of Korea (NRF)	p.22
	Philippines	Department of Science and Technology (DOST)	p.23
	Singapore	National University of Singapore (NUS)	p.23
	Thailand	National Research Council of Thailand (NRCT)	p.24
	Turkey	The Scientific and Technological Research Council of Turkey (TUBITAK)	p.24
	Vietnam	Vietnam Academy of Science and Technology (VAST)	p.25
South America	Brazil	Brazilian Federal Agency for Support and Evaluation of Graduate Education (CAPES)	p.25
Oceania	New Zealand	Ministry of Business, Innovation and Employment (MBIE)/ Royal Society of New Zealand (RSNZ)	p.26
Europe	Austria	Austrian Science Fund (FWF)	p.27
	Belgium	Fonds de la Recherche Scientifique-FNRS (F.R.S.-FNRS) Research Foundation – Flanders (FWO)	p.28 p.28
	Czech Republic	The Czech Academy of Science (CAS)	p.29
	Finland	Academy of Finland (AF)	p.29

	France	The National Center for Scientific Research (CNRS) National Institute for Research in Computer Science and Automation (Inria) the French National Institute of Health and Medical Research (Inserm) the Ministry for Europe and Foreign Affairs – the Ministry of Higher Education, Research and Innovation (MEAE-MESRI)	p.30 p.31 p.31 p.32
	Germany	German Academic Exchange Service (DAAD) German Research Foundation (DFG)	p.33 p.34
	Hungary	Hungarian Academy of Sciences (HAS)	p.34
	Lithuania	Research Council of Lithuania (RCL)	p.35
	Netherlands	Netherlands Organization for Scientific Research (NWO)	p.35
	Poland	Polish Academy of Sciences (PAN)	p.36
	Russia	Russian Foundation for Basic Research (RFBR)	p.37
	Slovenia	Ministry of Education, Science and Sport (MESS)	p.37
	Sweden	The Swedish Foundation for International Cooperation in Research and Higher Education (STINT)	p.38
	UK	The Royal Society	p.38
Remark	<p>1. Japanese and counterpart team leaders should be sure that their counterpart submits a matching application. <u>Applications submitted by one side only will not be accepted.</u></p> <p>2. Please note that some counterpart organizations limit the fields of application. Please refer to Section 15, “Instructions for individual countries” for more details including the fields of projects/seminars and number to be funded.</p>		

B. Open Partnership Joint Research Projects/Seminars

Countries/Regions	All countries that have diplomatic relations with Japan. (JSPS also treats researchers who reside in Taiwan and Palestine in this manner.)
Remark	<p>1. If the counterpart researchers have applied to a counterpart institution listed in the above “A” framework for bilateral activities, the Japanese researchers may not apply under this “B” framework.</p> <p>2. Each applicant is allowed to submit only one application under “B. Open Partnership Joint Research Projects/Seminars”. In this category, only one country may be selected as the counterpart country.</p>

3. Eligibility of Japanese applicants

At the time their application is submitted, applicants must hold a full-time or equivalent position as a researcher at a university or research institute in Japan those are specified in Article 2 of the Procedure for the Handling of Grands-in-Aid for Scientific Research (*KAKENHI*)*¹, issued by the Ministry of Education, Culture, Sports, Science and Technology (MEXT).

However, there are cases when a researcher not employed in a full time position may be eligible. Such persons must be eligible to apply for a *KAKENHI* Grant-in-Aid and his/her affiliated institution must judge

them able to implement the project and to provide an appropriate research environment (e.g., laboratory, equipment, personnel) for it.

The Principal Investigator (PI) is overall responsible for and plays a pivotal role in carrying out the collaborative research/seminar plan. Once an application is submitted, the PI may not be changed except for unavoidable reasons.

*¹ Institutions specified as eligible in Article 2 of the procedure for handling of Grants-in-Aid for Scientific Research:

- 1) Universities and inter-university research institutions
- 2) MEXT-affiliated institutions engaged in research
- 3) Colleges of technology
- 4) Institutions designated by the Minister of MEXT

4. Other conditions

* Please also refer to “15. Instructions for individual countries”

Activities Terms	Joint Research Projects	Joint Seminars
Participants from Japan	Researchers conducting research at a university or research institutions in Japan (including technical staffs who are eligible to apply for a Grant-in-Aid for Scientific Research (<i>KAKENHI</i>), postdoctoral researchers, students in doctoral and master courses, and emeritus professors (residing in Japan) who are sufficiently capable and experienced to carry out such projects/seminars)	
Participants from counterpart country	A: Researchers at a university or research institute under jurisdiction of counterpart organization in subject country B: Researchers at a university or research institute in subject country	
Submitting applications by counterpart country participants	A: Please refer to “15. Instructions for individual countries”. B: JSPS only supports the expenses of the Japanese teams. Counterpart researchers are encouraged to secure funding from sources in their own countries. The acquisition of funding may be a criteria in JSPS’s selection process.	
Participants	No limitation on number of participants. Researchers who belong to institution/organization in third countries are not allowed to participate.	No limitation on number of participants; Researchers from third countries may participate in seminars under the condition that they cover their own expenses.
Duration	Please refer to “15. Instructions for individual countries”.	
Others	With the exception of fieldwork or presentation of research reports on Joint Research Projects in an international conference, travel costs to third countries are not covered.	Seminars are to be held either in Japan or the counterpart country.

5. Expenses supported by JSPS

*Please also refer to “15. Instructions for individual countries”.

JSPS consigns the administration of projects to the Japanese team leader’s affiliated institution. When using funds, please follow JSPS’s rules. JSPS does not pay the institution a consignment fee.

JSPS covers the following expenses of researchers on the Japanese team:

Note: Regarding the allocation of costs with the counterpart country for items in < >, please refer to Section “15. Instructions for individual countries”.

1) Joint Research Projects

International travel	International airfare between Japan and counterpart country <Maintenance allowance>
Domestic travel	Domestic travel expenses for members of Japanese team <Domestic travel expenses and maintenance allowance for researchers of counterpart country during their stay in Japan>
Other expenses	Consumables, honoraria, printing, communication, meeting expenses (in Japan), etc.
Remark	It is recommended that more than 50% of total funding should be used for international/domestic travel.

2) Seminars

2)-1 Joint Seminars held in Japan

Domestic travel	Domestic travel expenses for members of Japanese team (for joint seminar, preparatory meeting (within twice) and/or debriefing (within once) held in Japan) <Domestic travel expenses and maintenance allowance for researchers of counterpart country during their stay in Japan>
Meeting expenses	Consumables, honoraria, printing, communication, meeting expenses, reception, excursion, etc.

2)-2 Joint Seminars held in counterpart country

International travel	International airfare between Japan and counterpart country <Maintenance allowance>
Following expenses incurred in Japan	
Domestic travel	Domestic travel expenses for members of Japanese team (for preparatory meeting and/or debriefing (within once in each) held in Japan)
Meeting expenses	Consumables, honoraria, printing, communication, meeting expenses (for preparatory meeting and/or debriefing), service charges, etc.
Remark	Costs for holding the seminars are to be covered by the counterpart organization.

6. Application procedure at JSPS

JSPS receives applications via its online application system. For details, please refer to http://www.shinsei.isps.go.jp/topkokusai/top_kokusai.html (*Japanese only)

Period for Acceptance: Wednesday, 22 August to Wednesday, 5 September, 2018

* Please note that applicants' affiliated institutions may set earlier deadlines.

**Under no circumstances will JSPS accept applications submitted after the deadline.

Please note that the electronic system will be out of service from 12 a.m., Saturday, 25 August to 8 a.m., Sunday, 26 August.

Please keep the following points in mind:

- During the down time, applicants data input on the system site will not be saved.
- Data saved before the down time will be retained as is.

7. Other instructions

- (1) [Only for "A Bilateral Joint Research Projects/Seminars with JSPS's Counterpart Institutions"]
Team leaders in counterpart countries are to submit their applications to JSPS's counterpart organization in their country. For further instruction, please refer to Section 15.
- (2) Under JSPS's international programs, researchers who are already representing a project in one of JSPS's program categories are not eligible to concurrently represent a project in another category with some exceptions. (The subject researchers are those responsible for implementing an already-selected project as its research representative, coordinator, chief seminar organizer or similar capacity. However, the heads of institutions and/or departments who represent the implementing organization are exempted.) For information on the approval of projects overlapping program categories, see Appendix "Table, Overlapping Program Restrictions."

The restriction on projects overlapping programs is not meant to limit application by researchers who are already representing another JSPS project or who are in the process of applying for one. In the case of projects overlapping program categories, the representative must choose one or the other: The existing project will be terminated if the representative is changed for the reason that s/he was selected for a new project. This should be borne in mind by those who are or will become the representative of a project under another program category. Once an application is submitted, the project's representative may not be changed.
- (3) Regarding the program Postdoctoral Fellowships for Research Abroad, implemented by JSPS, there is no restriction on applying for this program in the application stage of a bilateral exchange project. However, if selected (provisional notice of selection) for both, the applicant must choose one of them, as postdoctoral fellows are required to dedicate themselves solely to their research. Both the team leaders and participants of bilateral projects should bear this stipulation in mind when applying for these two programs.
- (4) Japanese principal investigators who are now or have been supported under any of JSPS's international programs in the past 5 years are required to describe the objectives and/or results of those research activities and their relevance to the proposed project.

8. Selection criteria for JSPS review

The following criteria are utilized in selection process:

- Scientific excellence of projects/seminars
- Necessity of cooperation, added value gained, and mutual research advancement through transfer of knowledge and expertise
- Impact of outcomes on improving the quality of life, contributing to socioeconomic development, and/or solving prevailing social issues
- Participation of young researchers and contribution to fostering them
- Feasibility and concreteness of the research plan and expectation of its advancing the research

In addition to the above criteria, the following points are also considered:

- Contribution to researcher interaction in advancing the research during the project/seminar. (<Only for the Joint Research Projects> It is required that more than 50% of total funding should be used for international/domestic travel.)
- Appropriateness of the budget plan
- Appropriateness of the venue in case of seminar
- [Only for “B Open Partnership Joint Research Projects/Seminars”] Appropriateness of balance among counterpart countries/regions. Whether counterpart countries are included under “A Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions” taken into consideration.

9. Selection procedure

(1) The screening process is conducted in two stages: a document review and a panel review. Regarding the document review, each application is screened by three document reviewers. Please confirm the details on our website as below (*Japanese only).

[URL] <http://www.jsp.go.jp/j-bilat/semina/shinse.html>

(2) Notification of the selection results will be made in writing through the head of the applying institution.

A. Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions

JSPS and counterpart organizations conduct separate reviews of the applications they receive. Based on these review results, they make joint selections. The results will be sent to the applying institutions in or after February 2019.

* Procedures may differ from country to country. Please refer to “15. Instructions for individual countries”.

B. Open Partnership Joint Research Projects/Seminars

JSPS conducts reviews of the applications JSPS receives and makes selections. The results will be sent to the applying institutions by January 2019.

(3) Non-selected projects are approximately ranked in an ABC order and notified in writing to the applicants. Selection results can be confirmed on JSPS online application system.

10. Post-selection funding request to JSPS

Upon selection, Japanese team leaders must submit an implementation plan and funding request using the prescribed form. JSPS will make funding allocations based on these documents and/or its budgetary condition.

11. Obligation of Japanese team leaders and their affiliated institutions

- (1) Project funds allocated by JSPS are to be administered by the institution with which JSPS concluded an agreement and to which the team leader is affiliated.
- (2) Team leaders must submit a report by the designated due date, which will be given public access, according to instructions by JSPS.
- (3) Due acknowledgement of support by JSPS and counterpart organizations should be made in any publication resulting from the projects/seminars.

12. Measures against misuse of research funds and handling of personal information, etc.

- (1) Measures against misuse of research funds, etc.

JSPS will take appropriate measures (e.g. terminate project, require reimbursement of part or all of allocated funds) in cases of misuse of research funds, improper practices (e.g. fabrication, falsification, plagiarism), unjustifiable acts (e.g. discrimination, harassment), or violation of laws. Please refer to the attached document* regarding appropriate use of competitive funds. (*Japanese only)
- (2) Responding to misconduct in research
 - a) About establishing a system based on “Guidelines for Responding to Misconduct in Research”

Participating institutions are to establish a system for administering projects based on guidelines to prevent misconduct in research activities. In carrying out application recruitment and research activities under this program, compliance with the “Guidelines for Responding to Misconduct in Research. Adopted August 26, 2014 by Ministry of Education, Culture, Sports, Science and Technology. (MEXT)” is required.

MEXT conducts survey on the condition of systems based on these Guidelines and reports of system deficiencies when found to MEXT, which may take such measures as cancelling indirect cost of all competitive funding that the institution currently receives.

For the Guidelines, see http://www.mext.go.jp/b_menu/houdou/26/08/1351568.htm (*Japanese only).
 - b) Submission of the “Checklist pertaining to the Current Status” based on “Guidelines for Responding to Misconduct in Research”

When contracting for this program, the Japanese PI’s research institution must submit a “Checklist pertaining to the Current Status” based on the “Guidelines for Responding to Misconduct in Research” to MEXT. If not submitted the project will not be approved.

In doing so, the format contained on the below website is to be used. The checklist is submitted via e-Rad to MEXT’s Science and Technology Policy Bureau, Knowledge Infrastructure Policy Division, Office for Promotion of Correct Research by the starting date of the research (the day that the contract is concluded). If a checklist was submitted on another occasion on or after April 2018, a new checklist does not need to be submitted.

For details on the checklist's submission procedure, see the following MEXT website.

[URL] http://www.mext.go.jp/a_menu/jinzai/fusei/1374697.htm (*Japanese only)

Note: Before submitting the checklist, the environment for using the e-Rad system must be set up. For details on this procedure, please see the following website.

[URL] <http://www.e-rad.go.jp/> (*Japanese only)

c) Measures against misconduct in research activities

The following measures will be taken if acts of special misconduct (fabrication, falsification, plagiarism) are found to occur in research activities conducted under this program:

- (i) Cancel or alter agreements with host institutions and/or require them to reimburse part or all of their consignment fees
- (ii) Place project application and participation restrictions on perpetrating researchers

Subject of Measures		Degree of Research Misconduct	Restricted from applying for grants (from the fiscal year following the year that the misconduct was confirmed*)	
Persons involved in fraudulent acts	(a) Particularly malicious persons in cases where, for example, the person intends to commit research misconduct from the start of his/her research		10 years	
	(b) Authors of papers (etc.) related to research in which research misconduct has been committed (excluding (a) above)	Authors and others responsible for such papers (etc.) (e.g. chief editors, lead authors, persons who bear responsibility equal to these persons)	Cases where it is judged that the impact of the misconduct on research progress in the subject fields is large, the social impact is major, and/or the level of maliciousness involved is high	5 to 7 years
			Cases where it is judged that the impact of the misconduct on research progress in the subject field is small, the social impact is minor and/or the level of maliciousness involved is low	3 to 5 years
		Authors other than those noted above		2 to 3 years
	(c) Persons who participated in the research misconduct other than those in (a) or (b)		2 to 3 years	
Authors and others who bear certain responsibility for the content of papers (etc.) (e.g. chief editors, lead authors, persons who bear responsibility equal to these persons) who are not participant in special misconduct but who fail to perform duties of care with regard to papers (etc.) of research in which acts of special misconduct are committed		Cases where it is judged that the impact of the misconduct on research progress in the subject field is large, the social impact is major, and/or the level of maliciousness involved is high	2 to 3 years	
		Cases where it is judged that the impact of the misconduct on research progress in the subject field is small, the social impact is minor and/or the level of maliciousness involved is low	1 to 2 years	

* However, grant will be suspended for the rest of the fiscal year that the misconduct was confirmed.

- (iii) Restrict application and participation in this program of researchers who are restricted from applying or participating in programs financed through competitive funding systems or basic government funding.

Not only “special research misconduct” but also other misconduct committed in research activities carried out under this program will, as a rule, be reported publically by MEXT, to include the name, type and field of the incident, the funding category involved, a summary of the misconduct, and measures taken by the research institution and funding agency.

When misconduct is found to have been committed, the research institution is to expeditiously conduct an investigation into the incident and publically release its findings. The institution is to take appropriate actions in accordance with the Guidelines.

[URL] http://www.mext.go.jp/a_menu/jinzai/fusei/1360483.htm (*Japanese only)

(3) Obligation to do research ethics education coursework

In order to preclude research misconduct, researchers participating in research (excluding seminars) under this program are to do research ethics education coursework before their joint research project starts. Their course options are as follows: Read the textbook For the Sound Development of Science—The Attitude of a Conscientious Scientist (Editing Committee “For the Sound Development of Science”); take the e-Learning Course on Research Ethics (eL CoRE); take the APRIN e-learning program (CITI Japan); attend a lecture at one’s research institution on research ethics education based on the “Guidelines for Responding to Misconduct in Research (issued on 26 August 2014 by MEXT).

After being selected for a project, the research institution of the PI on the Japanese side is to have the PI take a research ethics education course and submit a document confirming that s/he has completed the coursework.

(4) Handling of personal information

Personal information provided by applicants will be handled according to the “Act for the Protection of Personal Information Retained by Independent Administrative Institutions” and JSPS’s “Personal Information Protection Policy,” and be used solely for the purpose of implementing the program.

The names, positions and affiliations of the project’s PIs and participants, project titles, budget plans, the implementation period, annual plans and implementation reports results may be disclosed on JSPS’s website and in its publications.

13. Others

(1) JSPS does not support any research project related to military affairs.

(2) JSPS will not bear responsibility for any injury, sickness or accident incurred during travel related to the projects/seminars.

(3) Team leaders on both sides are obligated to ensure the protection and proper distribution of intellectual property resulting from projects/seminars, in accordance with the laws and regulations of their countries. It is requested that the team leader’s home institution set certain rules on attribution of intellectual property.

(4) JSPS does not support the issuing of visas or the arrangement of the accommodations related to bilateral joint research projects/seminars.

(5) Promotion of “Open Access” to the research papers supported by this grant

JSPS endorses general policy of promotion of open access of publications of research results funded by public grants including *KAKENHI*. Note that open access is not mandatory if there are justifiable reasons for deferral such as copyright-related issues, or insufficient repository infrastructure at the research institution.

The open access implementation policy of JSPS is given on the following webpage:

[URL] http://www.isps.go.jp/data/Open_access.pdf (*Japanese only)

【Reference 1: What is “Open Access”】

Open access refers to the basic idea that research papers published in peer-reviewed journals should be made freely accessible by anyone.

【Reference 2: Different Routes to Open Access】

There are 3 main ways of open access implementation ((1) to (3) below)

- (1) A way to make open the access to the article which is published in the conventional subscription fee type academic journal after a certain period (Embargo) (*1) (for example 6 months later) by opening the final manuscript to an Institutional Repository (*2) established by the research institution to which the author belongs, or by opening the final manuscript to the website etc. established by the researchers (self-archiving) (*3).
- (2) A way to make the article open access by posting the article on the Web established by the research community or public institution.
- (3) A way to make the article open access immediately by paying the publication fee (APC: Article Processing Charge) by the author of the article

***1 “Embargo”**

The predetermined period from the time of publication of an article in an academic journal to the time of release so that it can be posted on an online open access archiving system (repository).

***2 Institutional Repository**

An online archiving system created by university or research institution for storage and dissemination of the intellectual products. Institutional repositories play important roles in the reform of academic information distribution by enabling the researchers register their own articles, such as the transmission of research and education achievements of the research institution, PR for both the research institution and the researcher, guaranteeing the accountability of research and education activities towards society, and the long-term conservation of intellectual products.

***3 Self-archiving**

“Self-archiving” refers to online posting of articles published in academic journals, dissertations, or data by those other than the publisher, (the researcher or research institution) generally on their institutional repositories.

(6) Registration of the Researcher Information in researchmap

“researchmap” (<http://researchmap.jp/>) is, as a general guide to Japanese researchers, Japan’s largest researcher information database. Registered information on research results can be openly disseminated over the Internet. As research map is linked to e-Rad and many university faculty databases, it allows registered information to be accessed by other systems. Using researchmap precludes the need for researchers to re-register the same research information in multiple application forms and databases.

As information registered in researchmap can be effectively used for such purposes as conducting

studies related to the formulation of government's S&T policy and compiling statistics, participants in this program are encouraged to register in researchmap.

14. JSPS contact information

15. Instructions for individual countries

- * Japanese and counterpart team leaders should be sure that their counterpart submits a matching application. Applications submitted by one side only will not be accepted.
- * The number to be selected may change due to the budgetary situations and/or other conditions of JSPS and its counterpart organizations.
- * Please note that “Humanities, Social Sciences, and Natural Sciences” of the subject area means all fields including mathematical sciences, physical sciences, chemistry, engineering, biology, agricultural sciences, medicine, dentistry, and pharmacy.

A Bilateral Joint Research Projects/Seminars with JSPS’s Counterpart Institutions

<EGYPT: MOSR-STDF>

- Based on an agreement with MOSR-STDF, JSPS will cover the costs of the Japanese team, and MOSR-STDF will cover the costs of the Egyptian team. Costs associated with holding seminars will be covered by the receiving side.
- The counterpart Egyptian team leaders are to submit their applications to MOSR-STDF. Applications submitted by one side only will not be accepted. Japanese/Egyptian team leaders should, therefore, be sure that their counterpart submits a matching application.

	Max # to be selected	Duration	Funding from JSPS	Subject Areas
Joint Research Projects	2	Up to 2 years Starting date during period between 1 June 2019 and 31 December 2019	Up to JPY 2,500,000 per fiscal year (Up to JPY 5,000,000 in total)	Water, Energy, Food/ Agriculture, Health, ICT
Joint Seminars	2	Up to 1 week Seminars held during period between 1 June 2019 and 31 March 2020.	Up to JPY 1,500,000	Humanities, Social Sciences, and Natural Sciences

MOSR-STDF’s contact information:

<FRANCE: CNRS>

- Based on an agreement with CNRS, JSPS will cover the costs of the Japanese team, and CNRS will cover the costs of the French team.
- The counterpart French team leaders are to submit their applications to CNRS by 4 September, 2018. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application.
- A one-year extension may be permitted of the same project. (Slight modifications are acceptable.) To obtain this extension, the team leaders must reapply (by submitting matching applications to JSPS and CNRS using the same procedure as for new applications.) These extensions will be in competition with the other new projects.

	Max # to be selected	Duration	Funding from JSPS	Subject Area
Joint Research Projects	10	Up to 2 years Starting date during period between 1 April 2019 and 31 March 2020. CNRS : Starting date during period between January 2019 and December 2019 for the 1 year, January 2020 and December 2020 for the 2 year	Up to JPY 2,500,000 per fiscal year (Up to JPY 5,000,000 in total) CNRS: Up to EUR 8,000 per fiscal year	Humanities, Social Sciences, and Natural Sciences
Joint Seminars	5	Up to 1 week Seminars held during period between 1 April 2019 and 31 December 2019.	Up to JPY 2,500,000 CNRS: Up to EUR 6,000

<FRANCE: Inria> “AYAME Program”

- Based on an agreement with Inria, JSPS will cover the costs of the Japanese team, and Inria will cover the costs of the French team.
- The “AYAME Program” aims to support joint research projects having a balanced mobility scheme and involving scientists from Japan and France in the field of **information and communication science and technology**.
- The counterpart French team leaders are to submit their applications to Inria by 26 September, 2018. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application.
 For detailed information, please access:
<http://www.inria.fr/en/research/international-mobility/associate-teams/call-for-projects>
- Please note that the call will be launched by Inria on 28 June, 2018.
- The counterpart French team leaders must be researchers affiliated with Inria.
- Items (1) and (2) in the Word file part of the application form must be filled out in English.

	Max # to be selected	Duration	Funding from JSPS	Subject Area
Joint Research Projects	2	3 years Starting date during period between 1 April 2019 and 31 March 2020.	Up to JPY 2,000,000 per fiscal year (For 3-year projects: Up to JPY 6,000,000 in total) Inria: Up to EUR 10,000 per project per year (each project will be funded for a 3 year period).	Digital sciences, Computer science, Automation, and Applied mathematics

<FRANCE: Inserm>

- Based on an agreement with Inserm, JSPS will cover the costs of the Japanese team, and Inserm will cover the costs of the French team.
- The counterpart French team leaders are to submit their applications to Inserm by 6 September, 2018. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application.
- In FY 2019, JSPS/Inserm will support the seminar to be held in France.
- JSPS/Inserm supports a seminar involving up to 20 participants (10 from the French team and 10 from the Japanese team). A priority will be given to seminars involving experts from at least two

different laboratories from each side. On the French side, team leaders and participants must work at an Inserm laboratory.

*Notes on Subject Area in FY 2019 call for proposals

Life Science and Health

[Proposals addressing the following scientific themes are particularly encouraged: Cancer, Healthy aging (health/food, neurodegenerative diseases), Regenerative medicine, Biomedical imaging, Health technologies ("omics" technologies/robotics), Personalized medicine.]

	Max # to be selected	Duration	Funding from JSPS	Subject Area
Joint Seminar	1	2 to 3 days Seminars held during period between 1 April 2019 and 31 December 2019.	Up to JPY 2,500,000 Inserm: Up to EUR 12,000	Life Science and Health*

<FRANCE: MEAE - MESRI> "SAKURA Program"

- Based on an agreement with **MEAE - MESRI**, JSPS will cover the costs of the Japanese team, and the French side will cover the costs of the French team.
- The program aims to generate international networks between **promising young researchers** (*) (**). It supports the establishment of innovative Japanese-French scientific collaborations led by young researchers between higher educational establishments or research organizations in Japan and France. Long-established collaborations will not, in principle, receive the highest priority.
- (*) The team leader on the Japan side should be under 46 years of age at April 1, 2018
- (**) The following programs are recommended for established researchers:
 - JSPS-CNRS Joint Research Projects/Seminars
 - JSPS-Inria Joint Research Projects (AYAME Program)
- The counterpart French team leaders are to submit their applications to the French side by 5 September, 2018. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application. The project titles should be exactly the same between both applications.
- The French funding agency strongly encourages team leaders to pay attention to the Intellectual Property and confidentiality matters which should be considered carefully in order to avoid any problem during the course of the project. Therefore, team leaders are required to read carefully the document entitled "Guideline for good practices" including information on intellectual property rules, and agree to it. Consequently, team leaders from both countries and their organizations are encouraged to enter into partnership agreement including clauses relating to intellectual property projects.

For detailed information about the French call for proposals, please access:

<https://www.campusfrance.org/fr/sakura>

	Max # to be selected	Duration	Funding from JSPS	Subject Area
Joint Research Projects	12	Up to 2 years Japanese side: Starting date during period between 1 April 2019 and 31 March 2020. French side: from 1 February 2019 to 31 December 2020.	Up to JPY 1,000,000 per fiscal year (Up to JPY 2,000,000 in total) French side: Up to EUR 6,000 per fiscal year (Up to EUR 12,000 in total)	Humanities, Social Sciences, and Natural Sciences Subject area is NOT limited for FY2019.

<GERMANY: DFG>

- Based on an agreement with DFG, JSPS will cover the costs of the Japanese team, and DFG will cover the costs of the German team.
- Please note that if your German partners fail to submit their application to DFG by 6 September, 2018, your application will become invalid. As DFG does not issue a specific call for this program or set a specific deadline, it is necessary for the Japanese researchers to ask their German partners about them. They should immediately contact DFG to clarify the co-funding policy, application deadline, and documents to be submitted. For this, they should contact Ms. Fendel and/or Dr. Langer, whose contact information is provided below.
- Please be sure to contact Ms. Fendel and/or Dr. Langer, otherwise German proposals will not be proceeded.

	Max # to be selected	Duration	Funding from JSPS	Subject Areas
Joint Seminars	5	Up to 1 week Seminars held during period between 1 April 2019 and 31 March 2020.	Up to JPY 2,500,000	Humanities, Social Sciences, and Natural Sciences

<HUNGARY: HAS>

- Based on an agreement with HAS, the sending side will cover international travel expenses while the receiving side will cover domestic travel expenses and maintenance allowances.
- The counterpart Hungarian team leaders are to submit their applications to HAS by 10 a.m., 14 September, 2018. Applications submitted by one side only will not be accepted. Japanese/Hungarian team leaders should, therefore, be sure that their counterpart submits a matching application.
- Please contact HAS to check the eligibility to apply as the Hungarian team leader for a Joint Research Project. Contact information is noted below.
- Please be sure to put the name of HAS institution to which the Hungarian team leader is affiliated on the Japanese proposal even if s/he has a position in a university, otherwise HAS may not recognize his/her Hungarian eligibility.
- Japanese researchers visiting Hungary will receive accommodation expenses and a daily allowance in accordance with regulations by each host institution in Hungary.

	Max # to be selected	Duration	Funding from JSPS	Subject Areas
Joint Research Projects	4	Up to 2 years Starting date on 1 April 2019	Up to JPY 2,500,000 per fiscal year (Up to JPY 5,000,000 in total)	Humanities, Social Sciences, and Natural Sciences

<The UK: The Royal Society>

- Based on an agreement with The Royal Society, JSPS will cover the costs of the Japanese team, and The Royal Society will cover the costs of the British team.
- It is intended that JSPS and the Royal Society will fund the same joint research projects. Where this is not possible, JSPS and the Royal Society may agree to fund different projects, still matching the number of awards given.
- The counterpart British team leaders are to submit an application to the Royal Society by 2 October, 2018. Applications submitted by one side only will not be accepted. Japanese/British team leaders should, therefore, be sure that their counterpart submits a matching application.

	Max # to be selected	Duration	Funding from JSPS	Subject Areas
Joint Research Projects	5	<u>2 years</u> Starting date on 1 April 2019 for Japanese side. Starting date up to and including 31 March 2019 for UK side. Project duration fixed at 2 years.	<u>Up to JPY 2,000,000 per fiscal year</u> (Up to JPY 4,000,000 in total) RS: Up to GBP12,000 in total	Natural Sciences

The Royal Society's contact information:

Ms. Nadine Wood

(Tel) +44 (0)20 7451 2532

(Email) international.exchanges@royalsociety.org

Details of the scheme through which the UK partner must submit the proposal can be found at <https://royalsociety.org/grants-schemes-awards/grants/international-exchanges/>

B Open Partnership Joint Research Projects/Seminars

- JSPS will cover the costs of the Japanese team.

	Max # to be selected	Duration	Funding from JSPS	Subject Area
Joint Research Projects	60	<u>Up to 2 years</u> *Start date must be during the period of 1 April 2019 to 31 March 2020	<u>Up to JPY 2,000,000 per fiscal year</u> (Up to JPY 4,000,000 in total)	Humanities, Social Sciences, and Natural Sciences
Joint Seminars		<u>Up to 1 week</u> * Seminars must be held during the period of 1 April 2019 to 31 March 2020	<u>Up to JPY 2,000,000</u>	

- Participants in counterpart country must be researchers (graduate students are included) at a university or research institute in subject country.
- Counterpart researchers are encouraged to secure their own funding from sources in their own countries.

Table, Overlapping Program Restrictions

This table shows the overlapping restrictions on a researcher who is already the representative of a project under one program category (Program A) and applies for an international project under another category (Program B).

Program A \ Program B	① Bilateral Programs (Joint Research Projects/Seminars)	② JSPS-NSF Partnerships for International Research and Education (PIRE)	③ Open Research Area for the Social Sciences	④ Joint Research Projects with SNSF (JRPs)	⑤ Joint Research Projects with DFG (JRPs-LEAD with DFG)	⑥ Japanese-German Graduate Externship	⑦ JSPS Core-to-Core Program	⑧ A3 Foresight Program	⑨ FAPESP-JSPS Joint Research Workshop
① Bilateral Programs (Joint Research Projects/Seminars)	△	△	△	△	△	×	×	×	△
② JSPS-NSF Partnerships for International Research and Education (PIRE)	△	—	×	×	×	×	×	×	○
③ Open Research Area for the Social Sciences	△	×	—	×	×	×	×	×	○
④ Joint Research Projects with SNSF (JRPs)	△	×	×	—	×	×	×	×	○
⑤ Japanese-German Graduate Externship	×	×	×	×	×	—	×	×	×
⑥ JSPS Core-to-Core Program	×	×	×	×	×	×	—	×	×
⑦ A3 Foresight Program	×	×	×	×	×	×	×	—	×
