

List of Fellows Selected through Open Recruitment in Japan

The following list includes the names of the selected fellows, their host researchers and research themes under the first recruitment of FY 2011–2012 JSPS Postdoctoral Fellowship Program for Foreign Researchers. Under this recruitment, 1163 applications were received, among which 130 fellowships were awarded. Notification of the selection results will be made in writing through the head of the applying institution in the middle of January, 2011. An award letter will be sent to the successful candidates. Unsuccessful applicants (host researchers) will receive a notice of their approximate ranking, and will inform the candidates. Individual requests for selection results are not accepted.

List of Fellows Selected through Open Recruitment in Japan

The following list includes the names of the selected fellows, their host researchers and research themes under the first recruitment of FY 2011–2012 JSPS Postdoctoral Fellowship Program for Foreign Researchers. Under this recruitment, 1163 applications were received, among which 130 fellowships were awarded. Notification of the selection results will be made in writing through the head of the applying institution in the middle of January, 2011. An award letter will be sent to the successful candidates. Unsuccessful applicants (host researchers) will receive a notice of their approximate ranking, and will inform the candidates. Individual requests for selection results are not accepted.
