

FY2011 Procedures for Preparing and Entering a Proposal for Grant-in-Aid (Continued)

This proposal for grant-in-aid should be submitted for research projects of the research categories “Scientific Research (S/A/B/C)”, “Challenging Exploratory Research” and “Grant-in-Aid for Young Scientists (S/A/B)” the continuation of which has informally been agreed, and in which the applicant wants to make a significant change in the research plan ((1) a change in the research purpose or a change in the title of the proposed project, (2) a change in the annual plan of the budget for which an informal agreement has been received, (3) a reduction of the budget or a shortening of the research period, and other changes). The applicant should note that it is not necessary to submit it for other continued research projects.

Moreover, when filling in the proposal for grant-in-aid, the applicant should enter the information correctly, taking into account the following points.

Remarks

- ※ **When preparing the proposal for grant-in-aid, the Principal Investigator should make the preparations in a responsible way, in accordance with the rules set forth in the Application Procedures. Moreover, please refer to the Application Procedures for a definition of the Principal Investigator, the Co-Investigator (*kenkyū-buntansha*), the Co-Investigator (*renkei-kenkyūsha*) and the Research Collaborator.**
- ※ **No modifications can be made to the prescribed form.**
- ※ **Proposals for grant-in-aid prepared in English will be accepted. However, the items necessary for clerical processing of the application information (to be entered in the website) should be entered in Japanese.**

I. Application Information (to be entered in the website)

When preparing the application, the following items, which are “application information (to be entered in the website)” of the “proposal for grant-in-aid”, should be entered directly by the Principal Investigator, login the “Cross-ministerial Research and Development management system (hereinafter called “e-Rad”)” using the ID and the password which has been provided by the applicant’s research institution, accesses the “JSPS electronic application system for projects funded by grants-in-aid for scientific research” (hereinafter called “Electronic Application System”).

The application information (to be entered in the website) constitutes the first part of the proposal for grant-in-aid (PDF file) that is prepared using the electronic application system.

For procedures for preparing and entering application information (to be entered in the website), please refer to the “Procedures for Preparing and Entering Application Information (to be entered in the website) (“Scientific Research”, “Challenging Exploratory Research”, “Grant-in-Aid for Young Scientists (A/B)”)

(To be entered in the website)

1. New or continued (Select “Continued”, and enter the appropriate project number.)
2. Application for a Grant for the Fiscal Year before the Final Fiscal Year of a Research Plan (Only Scientific Research. Select “Does Not Apply”.)
3. Item Number, Screening Sub-panel Number (Except screening division “Overseas”.)
4. Desired Area for Screening, Item Number of Related research fields (Only screening division “Overseas”.)
5. Keywords from Keyword List, Other Keywords (Except screening division “Overseas”.)
6. Name of the Principal Investigator
7. Age (Only Grant-in-Aid for Young Scientists.)
8. Position, Academic Unit, and Research Institution of the Principal Investigator
9. Academic Degree, Field of Specialization and Effort (Only Grant-in-Aid for Young Scientists.)
10. Title of Proposed Project
11. Budget of Proposed Project
12. Wish for Disclosure of Screening Results
13. Contact Information of the Principal Investigator (Scientific Research (S) and Grant-in-Aid for Young Scientists (S).)
14. Project Members (Except Grant-in-Aid for Young Scientists.)

II. File Containing the Project Description (items in the attached file)

The following items are information about the “File Containing the Project Description (items in the attached file)”. They constitute the second part of the proposal for grant-in-aid (PDF file).

The Principal Investigator should download the “File Containing the Project Description (items in the attached file)” from the JSPS website for grants-in-aid for scientific research, fill it in. He or she should then access the “electronic application system”, and attach the filled-in file to the “electronic application system”.

When preparing the Overall Research Plan, the instructions given below and the instructions given in each section should be observed. Characters and symbols in 11-point font size or larger should be used for (1), and (3) below.

In addition, please take note that the following research projects are not eligible.

- ① Research projects which merely aim at purchasing ready-made research equipment.
- ② Research projects which aim at producing large-size research equipment and similar things which should be funded by other budgets.
- ③ Research projects which directly aim at developing and selling goods and services (including market trend surveys on the development and sale of goods and services).
- ④ Funded research which is carried out as commercial business.
- ⑤ Research projects with a budget of less than 100,000 yen in any of the fiscal years of the research period

(1) The sections “Purpose of the Research”, “Progress of the Research until FY2010”, “Assessment of the Research until FY2010”, “Research Plan and Methods from FY2011 on”, “Changes in the Original Plan”, “Rationality and Justification of the Research Costs”

The applicant should describe them according to the instructions mentioned in the proposal for grant-in-aid.

(2) The section “State of the Publication of the Research Achievements”

As for his/her research achievements, the applicant should enter the research papers/articles he or she published in academic journals (author(s), title of the research paper/article, title of the academic journal, peer reviewed or not, volume, first and last page, publication year (A.D.)) and the state of presentations at conferences.

(3) The section “Protection of Human Rights and Compliance with the Laws and Regulations”

The applicant should describe the measures and action that he or she will take, if his/her research involves compliance with the related laws and regulations, such as research requiring the consent and the cooperation of the other party when implementing the research plan, research requiring consideration for the handling of personal information and research requiring efforts regarding bioethics and safety measures.

This applies to surveys, research, experiments which require an approval procedure in an ethics committee inside and outside the research institution, such as for example questionnaire surveys in which personal information is involved, interview surveys, the use of provided samples, analysis study of human genome, recombinant DNA experiments, experiments on animals, etc. Please indicate where this is not applicable.

(4) In the section “Statement of Costs for Equipment” the applicant should enter the items by fiscal year and give the total cost, taking into account the following.

If the applicant is purchasing many books and materials, he or she should enter details, such as “books relating to politics during the Middle Ages in the West”, in such wording that the contents of

the books and materials becomes clear. For machines and tools, not only the type but also the breakdown of each set should be stated.

(5) In the section “**Statement of Costs for Consumables**”, the applicant should enter the name of each item, such as chemicals, test animals, scientific glassware and separate printing of research papers/articles, etc., separately, divide them for each fiscal year, and add the total sum.

(6) In the section “**Statement of Travel Expenses**”, the applicant should enter the items divided for each fiscal year, and add the total sum, taking into account the following points.

1) The applicant should divide travel expenses into domestic and overseas travel expenses and itemize them for each item, such as overseas/domestic travel expenses of the Principal Investigator, Co-Investigator (*kenkyū-buntansha*), Co-Investigator (*renkei-kenkyūsha*), and Research Collaborator(s) (e.g. collection of materials, various surveys, research meetings, and the publication of research achievements). He or she should itemize the local transportation expenses, accommodation fees and daily allowance for overseas and domestic travel.

2) The applicant should itemize personnel costs and the like, such as honoraria, compensation, wages and salaries to Research Collaborator(s) (e.g. people engaged in organizing materials, assisting in experiments, performing translation or proofreading, providing technical knowledge, distributing and collecting questionnaires and collecting information materials for research), and payment to temporary staff agencies.

(Example: Organizing materials: [breakdown: X (number of people) × Y (number of months)] XXXX yen)

3) The applicant should itemize costs other than the above-mentioned for conducting the research (e.g. the costs for printing, photocopying, developing/printing, correspondence (including stamps and phone calls), transport, renting the research facilities (only where the grant-aided project cannot be conducted in the facilities of the research institution), meetings (rental of the venue and meals (excluding alcohol)), equipment rental (e.g. computers, automobiles, experimental equipment), equipment repairs, transportation other than travel expenses, presentation of the research achievements (fees for contributing to the publications of academic societies, website creation, and preparation of pamphlets to publicize the research achievements) , experiment waste disposal cost).

III. Miscellaneous

The applicant should enter the number of a continued research project, the name of the research institution and the name of the Principal Investigator at the bottom of the page, if required.
