Blank cell: The researcher can apply for both research projects.

—: A researcher can only apply for one research project in one and the same research category (application section) (In case he/she has a continued research project mentioned in column A, he/she cannot apply for a research project mentioned in column B)

×: The researcher can only apply for one research project (in case he/she applied for a research project mentioned in column A, he/she cannot apply for a research project mentioned in column B).

▲: The researcher cannot apply for a research project mentioned in column B (He/she only implements the research of a continued research project mentioned in column A).

■: The researcher can apply for both research projects. However, in case both are adopted, he/she only implements the research of the research project in A.

□: The researcher can apply for both research projects. However, in case both are adopted, he/she only implements the research of the research project in B.

★: As a rule parallel grant application are not accepted. (This does not apply to cases where it is necessary to conduct two clearly different research projects within the same fiscal year.)

\*1 The case of application for a second time grant acquisition in the research category, “Grant-in-Aid for Early-Career Scientists”.

\*2 Applicable to those receiving a second time grant for a continued research project under "Early-Career Scientists."

\*3 As for Transformative Research Areas (A) (Publicly Offered Research), a call for proposals is scheduled in around early August 2022.

\*4 As for the Fostering Joint International Research (B), a call for proposals is scheduled in around April 2023.

1-2) Type “Principal Investigator (New Proposal/Continued) (Column A) → Principal Investigator (Column B)”

This table shows the restriction on parallel grant application/receipt in case of "a person who tries to apply as Principal Investigator for a research project mentioned in column A (research categories for which MEXT organizes a call for proposals), or a person who has already become Principal Investigator of a research project that is scheduled to be continued in FY2023 (continued research project) mentioned in column A" applies as Principal Investigator for mentioned in column B.

□: The researcher can apply for both research projects. However, in case both are adopted, he/she only implements the research of the research project in B.

Note that if a PI of a Planned Research project in the Transformative Research Areas or Scientific Research on Innovative Areas (Research in a Proposed Research Area) is selected as PI for a Specially Promoted Research, such Planned Research project is not allowed to replace its PI and must be abolished.

2-1) Type “Principal Investigator (New Proposal/Continued) (Column A) → Co-Investigator (Column B)”

This table shows the restriction on parallel grant application/receipt in case of "a person who tries to apply as Principal Investigator for a research project mentioned in column A (research categories for which JSPS organizes a call for proposals), or a person who has already become Principal Investigator of a research project that is scheduled to be continued in FY2023 (continued research project) mentioned in column A" participates in a research project mentioned in column B as Co-Investigator.
