

# JSPS Postdoctoral Fellowship for Overseas Researcher

## FY 2017 Biological

Name(Nationality)	Research Subject	Host Institute Host Researcher	Period	Region Prefecture
HUANG, Y.  CHINA	Influence of development of orogeny and monsoon climate on plant biogeography in East Asia	Chiba University MOMOYAMA, Arata Professor Graduate School of Horticulture	Jun 11, 2017~ Jun 10, 2019	Kanto Chiba
JIN, J.  CHINA	Developing a novel high-throughput TCR-antigen pair identification method for cancer immunotherapy	RIKEN SHIROGUCHI, Katsuyuki Unit Leader Quantitative Biology Center	Sep 1, 2017~ Aug 31, 2019	Kinki Osaka
KUANG, Y.  CHINA	Novel Synthetic RNA Tools for Efficient Cell Reprogramming	Kyoto University SAITO, Hirohide professor Center for iPS Cell Research and Application	Sep 1, 2017~ Aug 31, 2019	Kinki Kyoto
YE, W.  CHINA	Regulation of plasma membrane H <sup>+</sup> -ATPase in microbe-associated molecular pattern signaling	Nagoya University KINOSHITA, Toshinori Professor Institute of Transformative Bio-Molecules	Apr 1, 2017~ Mar 31, 2019	Chubu Aichi
CARRETERO-PINZON, X.  COLOMBIA	Evaluation of primate habitat fragmentation: What do primate faeces tell us?	Chubu University MATSUDA, Ikki Associate Professor Chubu University Academy of Emerging Sciences	Nov 29, 2017~ Nov 28, 2019	Chubu Aichi
THOMA, V.  CYPRUS	The neuroethology of feeding in jellyfish	Miyagi University of Education DEGUCHI, Ryusaku Professor Faculty of Education	Apr 1, 2017~ Mar 31, 2019	Tohoku Miyagi
PINA, M.  SPAIN	Modeling the evolution of hindlimb bones in apes and humans by phylogenetic comparative methods	Kyoto University NAKATSUKASA, Masato Professor Graduate School of Science	Nov 6, 2017~ Nov 5, 2019	Kinki Kyoto
DUBOSCQ, J. A.  FRANCE	Informing primate health management: linking host behavior to disease transmission	Kyoto University MACINTOSH, Andrew Associate Professor Primate Research Institute	Sep 9, 2017~ Sep 8, 2019	Chubu Aichi
