

Japanese-French FoS Symposium (FY2026)
Guidelines for Preparing Application Forms

1. Points common to all forms

- Make entries after checking the “points to note” in each form.
- Do not alter the format of the forms. Altering the size of the entry columns such as changing the height or width of the cells is not allowed nor is increasing the number of pages. Adjusting the font size is permissible; however, it may be seen as unfavorable during the screening process. Submit only specified documents.
- Be sure to write names in exactly the same way on all forms. When using alphabetic letters, write first and last name in a way that distinguishes which is which, by for example writing the last name in capital letters. To help the reviewers properly grasp last names, please put Japanese hiragana in “Name spelled in hiragana”.
- Make sure that all text is included in the PDF data before submitting it to JSPS.
