< Notes >

- Application form consists of Form1, Form2, and a Letter of Recommendation/Reference.
If you have not downloaded Form2 yet, go back to "受付中公募一覧" page to download.
- Check if your information on Form1 is correct and if it is not correct, contact administrative staff at your institution.
- Fields marked in * are mandatory
- The relevant section name corresponding to each of the "Document Review Section" field and the "Panel Review Section" field is automatically displayed when you enter the 5-digit "Basic Section code" and click on the "Confirm" button. Please note, however, that the section name may not be appeared in certain circumstances. If the "Document Review Section" field and "Panel Review Section" field is not automatically displayed and remained selectable, please select the applicable "Review Section".
- When you enter into the "Document Review Section" field, it displays up to 50 characters. A mark "..." is displayed if you enter more than 51 characters. After completing the field, please also check the PDF format application form to confirm that this mark is not contained in the "書面審査区分 (Document Review Section)".
- When you enter into the field where the maximum number allowed is displayed, please reduce the number of lines so that it will be less than or equal to that maximum number. The number of characters (including a half size) and the number of lines are given to provide a rough estimate to suggest that the typed content does not exceed the file size limit when converted into PDF. Please note that you may get error message even if the sum of the number of characters (including a half size) and the number of lines you have entered are less than the given estimate.
The line feed is converted into 2 bytes although it appears as a 0 character. For example, if you enter 960 bytes (480 full-width characters) and 21 or more of lines into an item where you can enter up to 1000 bytes (500 full-width characters), you will get an error message. Please make adjustment such as reducing line breaks in case an error message appears.
- If the system remains idle for a certain period of time, any information entered may clear due to session time-out. Click temporarily Save to store changes. In such instance, please read the frequently asked questions on the electronic application system information page.
