

FY2025 Procedures for Preparing and Entering a Research Proposal Document (items to be entered in the Website) (Fund for the Promotion of Joint International Research (Fostering Joint International Research))

The confirmation of the content of the application and the preparation of the review material is based on the “Research Proposal Document”, which constitutes one part of the application documents. Consequently, there is a possibility that the information entered in the website will have an influence on the results of the review, or the research project will not be accepted for review, because of the content entered. Therefore, the applicant should prepare the Research Proposal Document with care.

Also, a part of content entered (title of Proposed Research Project, effort, etc.) will be provided to the e-Rad.

In the “List of Research Categories Accepting Applications” screen of the Electric Application system, select “Application Information Input” for Fund for the Promotion of Joint International Research (Fostering Joint International Research).

First, the “Confirmation of the Research Project that is Currently Adopted” screen will be displayed. Choose the project for the application as your root research project by clicking on the radio button. If you choose the Grant-in-Aid for JSPS Fellows as the fund for your root research project, enter the project number as well as your login ID and password for the Grant-in-Aid for JSPS Fellows (Grant) System for your identity verification.

The “**Management Your Research Proposal Document**” Screen will appear. Next, select “Application Information Input” beside the application information you wish to enter (“Research Project Information”, “Research Expenditure and Description of Each Expenditure Category,” or “The Status of Application and Acquisition of Research Grants”). The entry screen for each item will appear. You can switch the entry screen to English by clicking the “Japanese  English” button in the upper left side of each entry screen.

“Research project information” Input Screen

1. Requested Area for Review

Please enter the area in which you wish your application to be reviewed. (Refer to “Application Procedures for Fund for the Promotion of Joint International Research (Fostering Joint International Research)”)

Areas for Review	①Informatics ②Environmental Science ③Humanities ④Social Sciences ⑤Mathematics/Physics	⑥Chemistry ⑦Engineering ⑧Biological Sciences ⑨Agricultural Sciences ⑩Medicine, Dentistry, and Pharmacy
-------------------------	--	---

2. Firstly related to Basic Section/Secondly related to Basic Section (This content is not converted to the PDF file.)

In “Grants-in-Aid for Scientific Research-KAKENHI-, Review Section Table” (hereinafter referred to as “Review Section Table”), select one Basic Section (01010~90150) firstly related to the research project. Also, it is possible to select optionally one more section as secondly related to Basic Section.

3. Name of the Principal Investigator

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator in question should verify whether his/her name has been displayed correctly. If there is an error, please temporarily save the input data, then contact the administrative office of your research institution and follow the instructions.

4. Age

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Therefore, the Principal Investigator should verify whether his/her age as of April 1, 2025, has been displayed correctly.

5. Research Institution, Academic Unit (School, Faculty, etc.) and Position

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator should verify whether the information on his/her professional affiliation has been displayed correctly at the time he/she is preparing the Research Proposal Document. If there is an error, please temporarily save the input data, then contact the secretariat of your research institution and follow the instructions.

6. Academic Degree, Effort (Time Spent on Project)

- In the “**Academic Degree**” column, Principal Investigator should fill in his/her academic degree.
- In the “**Effort**” column, the Principal Investigator should enter the time allocation rate (an integral number between 1 and 100) for **each fiscal year of the research period (up to 3 years)**, assuming that the research project for which the current application is being made would be adopted. If you are scheduled to start your research project in FY2026, please fill in “0” in the “FY2025” column.

When determining the time allocation rate, the Principal Investigator should determine it keeping in mind the definition of “effort” by the Council for Science and Technology Policy. This definition is “the percentage of time allocation (%) necessary for the implementation of the research in question, if the entire yearly working time of the researcher is set at 100%”. Moreover, the “entire working time” does not mean time spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

Moreover, when the research project for which the current application is being made is adopted, the Principal Investigator will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort in e-Rad before formal application for grant delivery.

7. Title of Research Project

In the column “Title of Research Project”, the applicant should enter a title for the proposed research project in a manner that the title specifically expresses the content of the research until the time of the completion of the research period. (The applicant should avoid general or abstract expressions.) In addition, applicants should note that the entire Research Proposal Document, including the title of the research project will be reviewed and will be publicized widely in the Grants-in-Aid for Scientific Research (KAKENHI) Database (KAKEN) if the research proposal is adopted. Therefore, make sure to select a title that effectively reflects the content of your research

project.

If your title includes double-byte characters, you can enter up to 80 bytes (40 double-byte characters); if you are using only single-byte characters, you can enter up to 200 bytes (200 single-byte characters).

Here, one double-byte character is counted as 2 bytes, and one single-byte character is counted as 1 byte. Note that voiced sound symbols (*dakuten*) and semi-voiced sound symbols (*handakuten*) are not counted as an independent character, but that double-byte alphabets, numbers, symbols, etc. will be counted and displayed as one character. As such, you should try to avoid the use of chemical formulae or mathematical expressions when possible. (E.g., Ca^{2+} entered in double-byte characters will be counted as 8 bytes, whereas Ca^{2+} using single-byte characters will be 4 bytes.)

As a general rule, changes in the title of the research project will not be accepted.

8. Research Abstract

The applicant should enter the purpose of the research project for which he/she applies, and the methods and other matters to achieve purpose of the research in a clear manner (including significance and necessity as joint international research). It is possible to enter these in Japanese or in English. In entering your abstract, keep in mind that your proposal will be subject to review from diversified perspectives by a broad set of reviewers. In addition, you can enter up to 1000 letters (one double-byte character is counted as 2 bytes, and one single-byte character is counted as 1 byte.).

9. Details of the Research Project that is Currently Adopted

In the “Details of the Research Project that is Currently Adopted” column, the following listed information is automatically entered with regard to the root research project on the “Confirmation of the Research Project that is Currently adopted” screen. Listed information includes the research category, title of research project, research period, project number, review section / research field (area) number, review sub-panel number, and review section / research field (area). Please check that all this information on the root research project has been registered correctly. When you have multiple research projects qualify as the root research project and you want to select another research project as the root research project, save the current screen temporarily and go back to the “Confirmation of the Research Project that is Currently adopted” screen, and select the root research project afresh.

10. Scheduled Total Travel Period

In the “Scheduled Total Travel Period” column, enter the time in units of months (rounding down fractions of a month) that you plan to stay overseas to carry out the proposed research project. **If you plan to stay overseas before or after this KAKENHI funded project using other funding, do not include that period.** In addition, if intervals of returning to Japan are included in your overseas stay plan, do not include the time you are back in Japan, only count the time of your overseas stay for the purpose of carrying out the proposed research project.

11. Country and Counterpart Research Institution name of your Travel Destination and Travel Period

In the column “Country and Counterpart Research Institution name of your Travel Destination and Travel Period,” enter the name of the country where you plan to stay to carry out international joint research in pursuit of the proposed research project. Enter also the name of the overseas counterpart institution. If you will have multiple counterpart research institutions in your destination country/countries, please enter the main one(s). You may have

more than one main counterpart institution.

Moreover, please enter the scheduled travel period in that international joint research will be carried out in the each above-described counterpart research institution. (If the period is undecided at the time, you submit this application, please enter the gist of that.)

12. Item to be pledged when Applying

Check the box if you have obtained the consent of the overseas joint researcher(s) with whom you plan to carry out international joint research. You may not apply if the box is not checked.

13. Request for disclosure

The applicant should select the appropriate item from among “Request for disclosure” or “Not Request for disclosure”, for the results of the document review etc., in case his/her proposed project is not adopted. With regard to the review results (the approximate ranking within the requested area for review) in the event that your research proposal is not adopted, select either “I request the disclosure of review results” or “I do not request the disclosure of review results.”

* “Disclosure” of the review results will be made only to the applicant through the electronic application system (Except for the applicant, the results cannot be viewed by anyone including the person(s) belong to the research institution).

Once you select “Not Request for disclosure,” JSPS will not disclose the review results for any reason whatsoever.

Input Screen of “Research Expenditure and Description of Each Expenditure Category”

In this column, details of research expenditure, their necessity and the basis of their estimation should be given in connection with the “Research Proposal Document (forms to be uploaded)”. In that case, please pay attention to “Target expenditure (direct expense)” and “Ineligible expenditure” described below. Please also be aware that a research plan with a research expenditure of less than 100,000 yen over the entire research period is not eligible under this application call.

When selecting projects, consideration will be given to allotting applicants the full amount of their requested in their application form.

(1) “Target expenditure (direct expense)”

The expenditure necessary for the implementation of the research plan (including the budget necessary for summarizing the research achievements) is eligible. Under the grant category “Fostering Joint International Research,” the expense items (i.e., Equipment Costs, Consumables Expenses, Travel Expense, Personnel Cost/Honoraria, Miscellaneous Expenses) are entered under three categories: “Travel Expenses and Accommodation Fees,” “Research Expense,” and “Cost of Replacement Staff.”

The purpose of Fostering Joint International Research is to support research plans carried jointly by PIs with researchers at overseas universities and research institutions for a set period of time. This should be born in mind when calculating the costs necessary to implement the research plan. Expenses need to carry out related research activities in Japan may be included.

As, however, project funding is to be expended based on the rules of your affiliated research institutions, they should be consulted so as to follow their rules when calculating expenses. Particularly **when calculating travel expenses, accommodation fees, and cost of replacement staff, be sure to coordinate and check with the administrative staff in charge at your affiliated institution in order to avoid excessive use of such expenses.**

	Expenses for Goods (Equipment Costs/ Consumables Expenses)	Travel Expenses	Personnel Cost/Honoraria	Miscellaneous Expenses
Travel Expenses and Accommodation Fees		○		○
Research Funding	○	○	○	○
Cost of Replacement Staff	○	○	○	○

* If any expenditure in the categories “Research Funding” and “Cost of Replacement Staff” exceeds 6-million yen or if any equipment will be purchased for the use in Japan, the necessity of such expenditure should be specified.

(2) Differentiating root research projects

Projects under the Fund for the Promotion of Joint International Research (Fostering Joint International Research), root research projects, and other KAKENHI projects cannot pool their funding, which must be separated. Direct expenses for the projects under the Fund cannot be used to cover the expenses for the research projects under other KAKENHI such as root research projects. You should be particularly careful when you spend the research expenses in Japan.

(3) “Ineligible expenditures”

The following expenditures are not included in the funding:

- 1) Expenditure for buildings and other facilities (excluding the expenditure for installations which became necessary because of the introduction of goods that have been purchased by means of direct expense)
- 2) Expenditure for handling accidents or disasters that occurred during the implementation of funded project
- 3) Personnel cost/Honoraria for the Principal Investigator
- 4) Other than expenditures above, expenditure which falls under indirect expense*

* Indirect expense is expenditure necessary for the management of the research institution and other things that arise during the implementation of the research project (corresponding with 30% of the amount of the direct expense). The expenditure is used by the research institution. This time, it is scheduled to set up indirect expense for the research categories for which a call for proposals is organized. However, the Principal Investigator does not need to state that indirect expense in the Research Proposal Document.

Research expenditure and usage breakdown are automatically calculated from the details of each expense. In the detail column of each expenditure, the data input column is displayed by pushing the necessary number of “Add” button on the left side of the input screen. For data entry fields that you do not use (if you have entered but do not use it or if you did not enter at all), please delete the data entry field by pressing the “Delete” button on the left side. Please enter the amount in thousand yen units and round off fractions smaller than one thousand yen. After completing all the details of each expense, please click the recalculate button. And the output in PDF will be the upper limit to 2 pages.

1. Travel Expenses and Accommodation Fees

Enter the following expenses needed for the principal investigator to carry out the research plan of the proposed research project: Cost of travelling to and staying overseas, and cost of returning to Japan after the overseas stay ends. To the extent that it does not impede your research activities at the overseas institution, you are allowed to make short visits back to Japan during your stay abroad. If such trips are necessary to carry out your project’s research plan, those travel costs can be paid. Other expenses can also be covered, including overseas travel and accident insurance, visas and vaccines.

In the “Description of Travel Expenses and Accommodation Fees” column, the necessity of research expenditure and the basis of their estimation should be given clearly and concretely based on their relation to your research plan.

Regarding travel expenses for research activities at your overseas destination, do not enter them in this column, but put them in the “Research Funding (Overseas)” column.

2. Research Funding (Overseas/Domestic)

If when carrying out international joint research overseas, it is also necessary to conduct research activities in Japan, the cost of that domestic research can also be funded. Therefore, please enter your overseas expenses and domestic expenses separately.

In the “Description of Research Funding” column, the necessity of research expenditure and the basis of their estimation should be given clearly and concretely, showing how they differ from the root research project and are based on your research plan. Moreover, if the following cases apply, please describe their necessity.

- If any expenditure in the categories “Research Funding” exceeds 6-million yen, the necessity of such expenditure should be specified.
- If any equipment will be purchased for the use in Japan, the necessity of the purchase for international joint research should be specified.

3. Cost of Replacement Staff

Principal investigators may enter expense items from those listed below needed to secure a person(s) to substitute for them at their research institution. In addition to it, to facilitate the Principal Investigator’s overseas stay, if there is a duty that cannot be carried out by his/her replacement staff for some reason, he/she may include the cost to carry out that duty at the overseas counterpart institution in the budget plan under “Expenses for Goods (equipment costs and consumables expenses).” For example, the following types of expenditures are allowed.

- Salary of part-time lecturer to give lectures and perform other duties in place of the Principal Investigator

- Honorarium and travel expense for inviting the part-time lecturer
- Funds for paying a part-time staff, TA or RA to support the personnel who carry out the Principal Investigator's education, research, university committee and other duties in his/her absence.
- The cost of equipment used by the Principal Investigator in carrying out his/her duty to educate students at the counterpart institution.

The following types of expenditures are not allowed.

- The cost of computers, tables and chairs (etc.) used in preparing for lectures given by the replacement staff
- The cost of teaching aids and consumable supplies used in giving lectures by the replacement staff
- Travel costs of the replacement staff when traveling on other business such as related to entrance exams or public relations (etc.).
- If the replacement staff is a collaborating researcher in the root research project, the payment of an honorarium to him/her is not allowed.

In the "Description of Cost of Replacement Staff" column, the relation between the entered expense and Principal Investigator's duties at his/her research institution should be described clearly and concretely. Moreover, when the cost of replacement staff exceeds 6-million yen, its necessity should be specified.

<Reference>

【Usage Examples】

	Expenses for Goods (Equipment and Consumables)	Travel Expenses	Personnel Expenditure and Remuneration	Miscellaneous
Travel Expenses and Accommodation Fees		Enter costs classified as "Travel Expenses" under "Travel Expenses and Accommodation Fees" (e.g., transportation, lodging, per diem). *Travel between Japan and other countries and between other countries is covered.		Enter costs not included in the section "Travel Expenses" that are needed by the PI in traveling to and staying in the counterpart country (e.g., overseas travel and accident insurance, visa application costs)
Research Funding	Costs of purchasing articles and equipment needed for domestic and overseas research	Enter costs classified as "travel expenses" (Exclude the travel expenses classified as "Travel Expenses and Accommodation Fees" and "Cost of replacement staff")	Enter costs to pay honoraria, compensation, wages, and salaries (etc.) to collaborators both overseas and in Japan, and to pay fees to worker-dispatch companies	Enter other costs not included to the left needed to carry out the research in both overseas and in Japan

Cost of Replacement Staff	Cost of equipment used by the Principal Investigator in carrying out his/her duty at the counterpart institution in the case that there is a duty that cannot be carried out by his/her replacement staff	Enter the travel cost required to invite the PI's replacement staff (e.g. transportation, lodging, per diem)	Enter costs to pay honoraria, compensation, wages, and salaries (etc.) to PI replacement staff and to pay fees to worker-dispatch companies	Enter costs not included in the section "Travel Expenses" and "Personnel Expenditure and Remuneration" that are needed to pay the PI's replacement staff
---------------------------	---	--	---	--

4. Points to Keep in Mind Regarding the Details of Budget

Please note the following points when entering details of each expense.

○ Equipment Costs

If the applicant is purchasing many books and materials, he or she should enter details, such as "books relating to politics during the Middle Ages in the West," in such wording that the contents of the books and materials becomes clear. (As for the books, the same way to journalize should be applied even if they were not handled as equipment.). For machines and tools, not only the type but also the breakdown of each set should be stated. Equipment needed for your research activities at the overseas research institution may be purchased. Considering, however, the length of your overseas stay, please consider other cost-efficient ways of acquiring the equipment such as renting or leasing.

However, this does not apply if your affiliated institution plans to continue using the equipment as its own property at the overseas institution after the proposed research project ends. Moreover, the applicant should enter Specification and place of installation (institution) in the section "Item".

○ Consumables Expenses

The applicant should enter the name of each item, such as chemicals, test animals, and scientific glassware, etc.

○ Travel Expenses

The applicant should itemize travel expenses for each item, such as overseas/domestic travel expenses of the Principal Investigator, and Research Collaborator(s) (e.g., collection of materials, various surveys, research meetings, and the publication of research achievements).

○ Personnel Cost/Honoraria

Please enter the expenditures for each matter such as honoraria, compensation, wages and salaries to Research Collaborator(s) (postdoctoral researchers, research assistants (RA), researchers belonging to overseas research institutions, and others) who engaged in organizing materials, assisting in experiments, performing translation or proofreading, providing technical knowledge, distributing and collecting questionnaires and collecting information materials for research), and payment to temporary staff agencies. In addition, enter the status at the time of collaboration (such as project assistant professor, postdoctoral fellow, student in Doctoral course/Master's course)

of the people to whom the personnel cost or honoraria to be paid if it is obvious.

(Example)

Organizing materials: [breakdown: X (number of students in Doctoral courses) × Y (number of months)] = XXXX yen. (Refer to the Application Procedures for Grants-in-Aid for Scientific Research.)

○ Miscellaneous Expenses

The applicant should itemize costs other than the above-mentioned for conducting the research (e.g. the costs for printing, photocopying, developing/printing, correspondence (including stamps and phone calls), transport, renting or leasing the research facilities (only where the grant-aided project cannot be conducted in the facilities of the research institution), meetings (e.g. rental of the venue and meals (excluding alcohol)), equipment rental and leasing (e.g. computers, automobiles, experimental equipment), equipment repairs, transportation other than travel expenses, presentation of the research achievements (fees for contributing to the publications of academic societies, website creation, and preparation of pamphlets to publicize the research achievements, costs of PR activities disseminating research achievements to the general public, including pupils and students, and other matters) , experiment waste disposal cost).

“The Status of Application and Acquisition of Research Grants” input screen

1. “The Status of Application and Acquisition of Research Grants” column

(This content is not converted to the PDF file.)

The entries in this column will be referred to by the reviewers in order to determine whether the grant status would not constitute a case of “unreasonable duplication and/or excessive concentration in the grant allocation” so that “the proposed research project can be duly carried out in parallel with other projects.” Therefore, it is strictly required that the information on the Principal Investigator of the research project at the time of application be correctly entered and confirmed, including “(1) Research Grant Application(s) in the Review Process”, “(2) Research Grant(s) Adopted and to be Delivered”, “(3) Research Expenses Other than e-Rad”, and “(4) Organizations You Belong to and Your Positions (Including Concurrent Positions, Participation in a Foreign Recruitment Program, Position of Professor Emeritus without Employment Contract)”. You can add the information on each researcher registered in e-Rad on the relevant screen by referring to and selecting such information. If you have revised the added information, such revisions will not be reflected in e-Rad. Therefore, make sure to revise the registered information in e-Rad.

*Linkage of researcher information in e-Rad usually takes about 30 to 60 minutes, but it may take as long as several hours during busy times. Make your registration in e-Rad well in advance, because a registration made on the final day for accepting applications may lead to linkage failure due to the reason above.

- This research project should be entered at the head of “(1) Research Grant Application(s) in the Review Process”.
- Not only KAKENHI but also other competitive research funds (including foreign ones) (*) should be entered in “(1) Research Grant Application(s) in the Review Process”, “(2) Research Grant(s) Adopted and to be

Delivered”, and “(3) Research Expenses Other than e-Rad”.

“(3) Research Expenses Other than e-Rad” refers to research expenses that fall under the following (A) or (B).

(A) Those that are not competitive research funds

(B) Those that are competitive research funds but whose application was not made in e-Rad

Research expenses that fall under the above should be entered in “(3) Research Expenses Other than e-Rad”.

(*) The Integrated Innovation Strategy 2020 states that “Regarding the acceptance of funds from foreign countries, we [the Government of Japan] will make information disclosure of the situation, etc. as a requirement at the time of a research funds application.” In response, starting from the FY2021 call for proposals, it is clearly stated that applicants submitting KAKENHI grant applications must declare any foreign research funds in “The Status of Application and Acquisition of Research Grants” column in the Research Proposal Document. Enter all domestic and foreign competitive research funds as well as any research funding, including subsidies from private foundations, funds for contract research and joint research in the review process and/or adopted and to be delivered.

Note the following points about joint research, etc. with a non-disclosure agreement will be handled.

- For the time being, you can submit without entering the name of the partner institution and the amount of research expenses accepted, if it is difficult to submit due to unavoidable circumstances such as when it is difficult to submit based on the contents of the confidentiality agreement that has already been concluded, etc.

And it should also be noted that when concluding a confidentiality agreement, etc. in the future, it is assumed that only necessary information may be submitted when applying for competitive research funds. Provided, if the parties to the agreement mutually agree on the scope of information to be kept confidential and reasonable grounds for such confidentiality (e.g., in case such information is materially important to corporate strategy and is deemed extremely confidential), the agreement can be formulated to prohibit the submission of such confidential information.

(*) The submitted information may be shared among the funding agencies and related ministries as well as information that has not been subject to a confidentiality agreement, but even in this case, the information will be shared only with those who have confidentiality obligations

- With regard to effort, enter the allocation rate (%) of the time required for conducting research activities, etc. for “(1) Research Grant Application(s) in the Review Process”, “(2) Research Grant(s) Adopted and to be Delivered”, and “(3) Research Expenses Other than e-Rad”, based on 100% of the total working hours in FY2025 for “(1) Research Grant Application(s) in the Review Process”, “(2) Research Grant(s) Adopted and to be Delivered”, “(3) Research Expenses Other than e-Rad”, “(4) Organizations You Belong to and Your Positions (Including Concurrent Positions, Participation in a Foreign Recruitment Program, Position of Professor Emeritus without Employment Contract)”, and (5) Other Activities. The “total working hours” does not mean time spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

- There is no need to enter the fundamental research grants that are allocated so that research activities, etc. can carry out as duties within the research institution to which the researcher belongs in “(1) Research Grant Application(s) in the Review Process” or “(2) Research Grant(s) Adopted and to be Delivered”. The effort of the research activities and so on that utilize such grants is included in “(5) Other Activities”. Moreover, the effort in the research project supported by a KAKENHI in which the researcher participates as Research Collaborator is included in “(5) Other Activities”.
- If the applicant is a JSPS Research Fellowship for Young Scientists (PD/RPD/DC) and plan to receive a Grant-in-Aid for JSPS Fellows in FY2025, please enter it in “(2) Research Grant(s) Adopted and to be Delivered”. Moreover, please do not enter the Grant-in-Aid that is paid monthly by JSPS (research implementation costs).
- If the applicant has added or revised “(3) Research Expenses Other than e-Rad” and “(4) Organizations You Belong to and Your Positions (Including Concurrent Positions, Participation in a Foreign Recruitment Program, Position of Professor Emeritus without Employment Contract)”, he/she should be sure to make necessary additions or revisions on the “Researcher Details” page in e-Rad.

(1) Research Grant Application(s) in the Review Process” and “(2) Research Grant(s)

Please enter the following information as of the time of application.

(1) Research Grant Application(s) in the Review Process

- Research project relevant to this application
- Research projects for which your KAKENHI application is currently in the review process (projects where you serve as the Principal Investigator or Co-Investigator)
- Research projects for which your application for Competitive Research Funds, etc. other than KAKENHI is currently in the review process (projects for which you made application through e-rad)

(2) Research Grant(s) Adopted and to be Delivered

- Research projects for which KAKENHI has been adopted and to be delivered in FY2026 (projects where you serve as the Principal Investigator or Co-Investigator)
- Research projects for which Competitive Research Funds, etc. other than KAKENHI have been adopted and to be delivered in FY 2026 (projects for which you made application through e-Rad)

○ “Role in this Project”

Please select “PI” if the role of the researcher is a Principal Investigator or select “Co-I” if the role of the researcher is a Co-Investigator.

○ “Funding Scheme, Grant Category (Funding Organization)”

In case of KAKENHI, please select the research category. For cases other than KAKENHI, please select “Other” and enter the name of the research grant and the name of the funding organization in the lower row.

○ “Research Period”

Please enter the research period.

○ “Title of Proposed Research Project”

Please enter the title of proposed research project.

○ “Name of Principal Investigator”

If applicant select “Co-I” in the column of Role in the Project, please enter the name of the Principal Investigator (or equivalent) of the research subject.

○ “Research Expenditure for FY2025 (Research Expenditure for the whole period) (Unit: thousand yen)”

Enter the amount of direct expense of research expenditure to be received and used by him/ herself in FY2025 (items under application is the applied amount) in the upper row, and at the same time enter the total amount (planned amount) to be used by him/ herself during the whole period in the lower row.

If applicant select “Co-I” in the column of Role in the Project, please enter the amount of contribution (planned amount) to be received and used by him/ herself in FY2025 in the upper row, and at the same time enter the total amount of contribution (planned amount) to be used by him/ herself during the whole period in the lower row. (Please enter "0" if contributions are not distributed in the respective column.

○ “Effort Percentage in FY2025 (%)”

Based on 100% of the total working hours for “(1) research grant application(s) in the review process”, (2) research grant(s) adopted and to be delivered” and “(3) other activities” to be entered in this column, please enter the allocation rate (%) of the time required for conducting activities etc. The “total working hours” does not mean time spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

In addition, when conducting research by the competitive research grants please be sure to enter the effort related to the research activity. When the research project for which the current application is being made is selected, the applicant will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort in e-Rad before formal application for grant delivery.

○ “Distinction of the research contents and reason for submission of this KAKENHI application in addition to the other projects, and other relevant information”

Please explicitly enter the items focusing on the research grant application(s) in the review process or research grant(s) adopted and to be delivered, distinction of the research contents, and reason for submission of this KAKENHI application in addition to the other projects of the research project.

In addition, enter the affiliated institution and title/position in submitting or accepting the research project.

You must enter the affiliated institutions and titles/positions for each and all of the projects, even if they are the same as the affiliated institution and your title/position under which you are submitting this application.

If applicant is a Principal Investigator of KAKENHI, please enter the total amount of direct expense for the

whole research period including the shared amount to the Co-Investigators in this column.

(3) Research expenses other than e-Rad

Please enter the following information at the time of application.

- Research projects for which your application for Competitive Research Funds, etc. other than KAKENHI is currently in the review process (projects where you serve as the Principal Investigator or Co-Investigator whose application was not made in e-Rad)
- Research projects for which Competitive Research Funds, etc. other than KAKENHI have been adopted and to be delivered in FY 2026 (projects for whose application was not made in e-Rad)

○“Kind of Contract”

Select the kind of the contract.

○“Partner institution”

Enter the partner institution and select the name of the country where it is located from the list.

○“Funding system”

Enter the name of the funding system. Enter “-” (hyphen) for those without the name of the system, such as joint research grants.

○“Research Period”

Enter the research period.

○“Title of the Research Project”

Enter the title of the research project.

○“Budget Amount”

Enter the budget amount for the entire research period. Select the appropriate currency unit in the case of an overseas project.

○“Effort”

Enter effort in FY2025. Be sure to enter the effort related to the relevant research activity.

If you have revised effort information added from e-Rad registration details, such revisions will not be reflected in e-Rad. Therefore, be sure to make necessary revisions on the “List of Effort Page” of e-Rad.

In addition, when the research project for which the current application is being made is selected, you will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort in e-Rad before formal application for grant delivery.

○“Whether or not a confidentiality agreement concluded”

Choose whether or not you have concluded a confidentiality agreement. **If you have chosen “Yes” in the**

“Whether or not a confidentiality agreement concluded” column, entering items other than the partner institution (and the name of the country where it is located) and the budget amount is mandatory.

(4) Organizations you belong to and your positions (including concurrent positions, participation in a foreign recruitment program, position of professor emeritus without employment contract)
--

- “Organizations you belong to and your positions (including concurrent positions, participation in a foreign recruitment program, position of professor emeritus without employment contract)”

Enter organizations you belong to and your positions; for example, concurrent positions, participation in a foreign recruitment program, or position of professor emeritus without employment contract.

- “Location of partner institution”

Select the location of the partner institution.
