#### Notes to observe when preparing the Research Proposal Document

KAKENHI funding aims to promote scientific research in all fields based on original ideas of researchers. The grants provide financial support for creative and pioneering research projects that will become the foundation of social development.

In KAKENHI, research theme setting is at the applicant's discretion. As such, KAKENHI research proposals are evaluated based not only on their scientific significance, but also on their originality and creativity. Accordingly, in the Research Proposal Document forms for the "Scientific Research", "Early-Career Scientists" and "Research Activity Start-up" categories, applicants are required to state:

- ✓ What kind of <u>key scientific question(s)</u> is set against the relevant <u>scientific background</u> (such as research trends and new developments)?
- ✓ What are the scientific originality and creativity of the proposal?
- ✓ What was the circumstances leading to the conception of the research idea?
- ✓ What are the research trends (domestic and overseas) and the positioning of this research in the relevant field?

In the review process, research proposals will be screened either by Comprehensive Review or Two-Stage Document Review. Reviewers strive to grasp the essence of the proposed research through exchange of opinions among them, evaluate such merits as scientific significance, originality and creativity, and comprehensively place their judgments taking account of the feasibility of the research plan and the applicant's ability to conduct research.

In applying for KAKENHI, applicants are advised to take note of the above, and to read the Application Procedures for Grants-in-Aid for Scientific Research and the explanations of review criteria and the annotations in the application form in preparing their Research Proposal Documents, so that the scientific merits and other points in the research proposal will be appropriately conveyed to the reviewers.

<sup>\*</sup> Forms for the Research Proposal Document (forms to be uploaded) will be downloaded from the JSPS website below.

# FY2024 Procedures for Preparing and Entering a Research Proposal Document for "Scientific Research (A/B/C) (General)", "Early-Career Scientists" (New Proposal)

Applicants for the KAKENHI should fill in this Research Proposal Document, giving details of the research project based on the Application Procedures, and submit it to the Independent Administrative Legal Entity Japan Society for the Promotion of Science (hereinafter referred to as JSPS) prior to application. **This Research Proposal Document is used as a review material at the JSPS Scientific Research Grant Committee.** 

The applicant should fill in the form correctly, while taking the following points into account.

When the application is adopted as a result of the review at the Scientific Research Grant Committee, a notice concerning the provisional grant decision will be issued. By the form of the formal application for grant delivery, the submission based on the notice will be done. The KAKENHI will be disbursed if the research plan, etc. are acknowledged as appropriate.

#### Items to be noted

- \* This Procedures for Preparing and Entering is to be used to prepare Research Proposal Document for "Scientific Research A (General)" reviewed by the "Medium-sized Section" and "Scientific Research B/C (General), "Early-Career Scientists" reviewed by the "Basic Section" as "New Application" (including the research proposal submission in the fiscal year previous to the final fiscal year of the research period of an on-going research project)".
- \* When preparing the Research Proposal Document, the Principal Investigator should make the preparations with responsibility, in accordance with the rules set forth in the Application Procedures.
- \* Characters and symbols in 11-point font size or larger (10-point or larger in English) should be used in the main text, considering a large number of application forms for research project will be reviewed.
- \* The Research Proposal Document consists of "items to be entered in the website" and "forms to be uploaded".
- \* Make sure that the title of each column is at the top of the page. Also, do not exceed the number of pages specified for each item. As a result of filling according to the instructions of each item, blank pages may be generated but in that case, do not delete them.
- \* The sentences important notes on the form should be deleted but do not delete other instructions and boxes.
- \* Research Proposal Document prepared in English will be accepted.
- \* Before submitting, be sure to check whether the contents of the Research Proposal Document converted to the PDF file and the content shown in the "Status of Application and Acquisition of Research Grants" column are complete (missing characters, charts, garbled characters, etc.).

#### I. Research Proposal Document (items to be entered in the website)

The following items are "to be entered in the website" of the "Research Proposal Document". When preparing their applications, Principal Investigators should access the JSPS Electronic Application System for Projects Funded by KAKENHI (hereinafter referred to as "Electronic Application System") using their ID and password for the "Cross-Ministerial Research and Development Management System (e-Rad)", which has been provided by the research institution to which they belong, and directly enter their data.

The items to be entered in the website constitute the first part ("Section desired the review", "Name of Principal Investigator (PI)", etc.) and the second part ("Research Expenditures and Their Necessity", "The Status of Application and Acquisition of Research Grants") of the Research Proposal Document that is prepared using the Electronic Application System.

The "Status of Application and Acquisition of Research Grants" column will not be shown in the Research Proposal Document PDF file. Instead, the content shown on the electronic application system will be reviewed.

For procedures for entering items to be entered in the website, refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document" (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

### o Items to be entered in the Website (First half)

- Research proposal submission in the fiscal year previous to the final fiscal year of the research period of an ongoing research project
- Section desired the review
- · Name of the Principal Investigator
- · Position, Academic Unit (School, Faculty, etc.), and Research Institution
- Academic Degree and Effort (\*only for "Early-Career Scientists")
- Date of Ph.D. Acquisition (\*only for "Early-Career Scientists")
- Application Requirements (\*only for "Early-Career Scientists")
- · Title of the Research Project
- Research Abstract (\*only for "Scientific Research (A)")
- · Request for Disclosure
- Project Members (PI and Co-Investigator(s) (Co-I(s))) (\*Except "Early-Career Scientists")

#### o Items to be entered in the Website (Second half)

"Research Expenditures and Their Necessity"

- · Research Expenditure
- Details of Equipment Costs
- Details of Consumables Expenses
- Details of Travel Expenses, Personnel Cost/Honoraria and Miscellaneous Expenses

"The Status of Application and Acquisition of Research Grants"

• The Status of Application and Acquisition of Research Grants

### II. Research Proposal Document (forms to be uploaded)

The following items are contents on the "Research Proposal Document (forms to be uploaded)". They constitute the intermediate part of the Research Proposal Document (PDF file).

The Principal Investigator should download the "Research Proposal Document (forms to be uploaded)" from the

JSPS website for Grants-in-Aid for Scientific Research, and fill it in. He/She should then access the "Electronic Application System", and upload the filled-in file to the "Electronic Application System". (Files above 5 MB cannot be uploaded.)

When preparing the Overall Research Plan, the instructions given below and the instructions given in each column should be observed. The margin of style is set with upper 20 mm, lower 20 mm, left 25 mm, and right 25 mm. Do not change the setting margins because there is a risk of missing characters etc. when preparing the review material.

#### (1) "Research Objectives, Research Method etc." column

The description should be given what kind of research you plan and its summary in this proposal in accordance with the instruction specified in the Research Proposal Document to be submitted this time so that the overall structure can be clarified. The summary should be given with approximately 10 lines of paragraph.

In this column, provide information on the Research Collaborators as necessary in describing the overall research plan.

### (2) "Applicant's Ability to Conduct the Research and the Research Environment" column

Enter in accordance with the instruction specified in the Research Proposal Document.

The description for the "(1) applicant's hitherto research activities" should be focused on the research activities relevant to the submitted research plan to show the feasibility of the research plan. Any international efforts related to the applicant's research plan (such as his/her records of joint international research and research history in overseas institutions) should be included as necessary. In case the Co-Investigator involves, it should be focused on the research activities relevant to the prospected roles in the research plan by the Co-Investigator.

The description in this column is to explain the feasibility of the research plan. On citing research achievements (research papers, books, patents, invited talks, etc.) they should be given not as an exhaustive list but as supporting evidence to prove the applicant's ability to conduct the proposed research.

Sufficient information should be given so that the reviewers can identify the research achievements. In the case of a research paper, for example, the relevant bibliographic information, including the title of the paper, the author(s), the title and the volume of the journal, the publication year, and the pages of the article should be given.

The research papers that can be cited are only those already published or accepted for publication.

In case that the applicants have periods during which the researches were suspended due to acquisition of maternity leave, childcare leave, care leave and so on, they may choose to write about it in this column.

#### (3) "Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations" column

Enter in accordance with the instruction specified in the Research Proposal Document. If the proposed research does not fall under such categories, enter "N/A (not applicable)".

## (4) "Items to be Entered When New Application is Made in the Fiscal Year Previous to the Final Year of the Research Period of an On-Going KAKENHI Project" column

If applicant is newly applying as "New Application is Made in the Fiscal Year Previous to the Final Year of the Research Period of an On-Going KAKENHI Project" (cf. Application Procedures for Grants-in-Aid for Scientific

Research), enter the each item with approximately 10 lines of paragraph in accordance with the instruction specified in the Research Proposal Document. If not, submit this form leaving the column blank without any deletion.

\* When entering in the column of "Research Expenditure and Their Necessity" and "The Status of Application and Acquisition of Research Grants", refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

### Scientific Research (A) (General) 1

#### 1. Research Objectives, Research Method, etc.

This research proposal will be reviewed in the Medium-sized Section of the applicant's choice. In filling this application form, refer to the Application Procedures for Grants-in-Aid for Scientific Research -KAKENHI-.

Research objectives, research method, etc. should be described within 6 pages.

A succinct summary of the research proposal should be given at the beginning.

The main text should give descriptions, in concrete and clear terms, of (1) scientific background for the proposed research, and the "key scientific question" comprising the core of the research plan, (2) the purpose, scientific originality, and creativity of the research project, (3) the circumstances leading to conception of the present research proposal, domestic and overseas trends related to the proposed research and the positioning of this research in the relevant field, (4) what will be elucidated, and to what extent and how will it be pursued during the research period, and (5) preparation status towards achievement of the purpose of the research project.

If the proposed research project involves Co-Investigator(s) (Co-I(s)), a concrete description of the role-sharing between the Principal Investigator (PI) and the Co-I(s) should be given.

#### [SUMMARY]

#### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

#### Note 1:

Read and understand the following important notes carefully before preparing your Research Proposal Document.

KAKENHI funding aims to promote scientific research in all fields based on original ideas of researchers. The grants provide financial support for creative and pioneering research projects that will become the foundation of social development.

In KAKENHI, research theme setting is at the applicant's discretion. As such, KAKENHI research proposals are evaluated based not forms for the "Scientific Research", "Early-Career Scientists" and "Research Activity Start-up" categories, applicants are required to

only on their scientific significance, but also on their originality and creativity. Accordingly, in the Research Proposal Document

- What kind of key scientific question(s) is set against the relevant scientific background (such as research trends and new developments)?
- What are the scientific originality and creativity of the proposal?
- What was the circumstances leading to the conception of the research idea?
- What are the research trends (domestic and overseas) and the positioning of this research in the relevant field?

In the review process, research proposals will be screened either by Comprehensive Review or Two-Stage Document Review. Reviewers strive to grasp the essence of the proposed research through exchange of opinions among them, evaluate such merits as scientific significance, originality and creativity, and comprehensively place their judgments taking account of the feasibility of the research plan and the applicant's ability to conduct research.

In applying for KAKENHI, applicants are advised to take note of the above, and to read the Application Procedures for Grants-in-Aid for Scientific Research and the explanations of review criteria and the annotations in the application form in preparing their Research Proposal Documents, so that the scientific merits and other points in the research proposal will be appropriately conveyed to the reviewers

#### Note 2:

Proposals submitted to the research category Scientific Research (A) will be reviewed in the pertaining Mediumsized Section of the Review Section Table. The proposal document should be prepared with consideration that it will be reviewed from diverse viewpoints by a review committee consisting of reviewers with different backgrounds.

#### Note 3:

- Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- Complete the form using font size 10-point or larger. 2
- The title and instructions on the upper part of each page should be left intact.
- Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

### Scientific Research (A) (General) 9

### 3. Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations

(cf. Application Procedures for Grants-in-Aid for Scientific Research)

If the proposed research involves such issues that require obtaining the consent and/or cooperation of third parties, consideration in handling of personal information, or actions related bioethics and/or biosafety, including the laws, regulations and the guidelines in the country/region(s) where the joint international research is to be conducted, describe the measures and actions planned to be taken in responding to these issues within 1 page.

This provision applies to research activities that would require approval by an internal or external ethical jury, such as research involving handling of personal information from questionnaire surveys, interviews and/or behavior surveys, including personal histories and images, handling of donated specimens, human genome analysis, recombinant DNA, and experimentation with animals. If the activities of the proposed research do not fall under such categories, enter "N/A (not applicable)".

## 4. Items to be Entered When New Application is Made in the Fiscal Year Previous to the Final Year of the Research Period of an On-Going KAKENHI Project

(For an application that comes under this category, this column is a mandatory entry. (cf. Application Procedures for Grants-in-Aid for Scientific Research))

The applicant should give within 1 page: (1) the relevant information on the on-going project (for which FY2024 is the final year of the research period) including the original plan at the time of application/adoption and the research accomplishment such as new knowledge acquired, and (2) the reason why he/she is submitting this new proposal for FY2024 on top of the on-going project (in terms of the development of the on-going research, necessity of new research budget, etc.). If not applicable, leave this page blank. (Do not eliminate the page.)

### Scientific Research (B) (General) 1

#### 1. Research Objectives, Research Method, etc.

This research proposal will be reviewed in the Basic Section of the applicant's choice. In filling this application form, refer to the Application Procedures for Grants-in-Aid for Scientific Research -KAKENHI-.

Research objectives, research method, etc. should be described within 5 pages.

A succinct summary of the research proposal should be given at the beginning.

The main text should give descriptions, in concrete and clear terms, of (1) scientific background for the proposed research, and the "key scientific question" comprising the core of the research plan, (2) the purpose, scientific originality, and creativity of the research project, (3) the circumstances leading to conception of the present research proposal, domestic and overseas trends related to the proposed research and the positioning of this research in the relevant field, (4) what will be elucidated, and to what extent and how will it be pursued during the research period, and (5) preparation status towards achievement of the purpose of the research project.

If the proposed research project involves Co-Investigator(s) (Co-I(s)), a concrete description of the role-sharing between the Principal Investigator (PI) and the Co-I(s) should be given.

#### [SUMMARY]

#### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

#### *Note 1* :

1. Read and understand the following important notes carefully before preparing your Research Proposal Document.

KAKENHI funding aims to promote scientific research in all fields based on original ideas of researchers. The grants provide financial support for creative and pioneering research projects that will become the foundation of social development.

In KAKENHI, research theme setting is at the applicant's discretion. As such, KAKENHI research proposals are evaluated based not only on their scientific significance, but also on their originality and creativity. Accordingly, in the Research Proposal Document forms for the "Scientific Research", "Early-Career Scientists" and "Research Activity Start-up" categories, applicants are required to state:

MA

- ✓ What kind of key scientific question(s) is set against the relevant scientific background (such as research trends and new developments)?
- ✓ What are the scientific originality and creativity of the proposal?
- What was the circumstances leading to the conception of the research idea?
- ✓ What are the research trends (domestic and overseas) and the positioning of this research in the relevant field?

In the review process, research proposals will be screened either by Comprehensive Review or Two-Stage Document Review. Reviewers strive to grasp the essence of the proposed research through exchange of opinions among them, evaluate such merits as scientific significance, originality and creativity, and comprehensively place their judgments taking account of the feasibility of the research plan and the applicant's ability to conduct research.

In applying for KAKENHI, applicants are advised to take note of the above, and to read the Application Procedures for Grants-in-Aid for Scientific Research and the explanations of review criteria and the annotations in the application form in preparing their Research Proposal Documents, so that the scientific merits and other points in the research proposal will be appropriately conveyed to the reviewers.

#### Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

### Scientific Research (C) (General) 1

### 1. Research Objectives, Research Method, etc.

This research proposal will be reviewed in the Basic Section of the applicant's choice. In filling this application form, refer to the Application Procedures for Grants-in-Aid for Scientific Research - KAKENHI-.

Research objectives, research method, etc. should be described within 4 pages.

A succinct summary of the research proposal should be given at the beginning.

The main text should give descriptions, in concrete and clear terms, of (1) scientific background for the proposed research, and the "key scientific question" comprising the core of the research plan (2) the purpose scientific originality, and greativity of the research project (3)

scientific question" comprising the core of the research plan, (2) the purpose, scientific originality, and creativity of the research project, (3) the circumstances leading to conception of the present research proposal, domestic and overseas trends related to the proposed research and the positioning of this research in the relevant field, (4) what will be elucidated, and to what extent and how will it be pursued during the research period, and (5) preparation status towards achievement of the purpose of the research project.

If the proposed research project involves Co-Investigator(s) (Co-I(s)), a concrete description of the role-sharing between the Principal Investigator (PI) and the Co-I(s) should be given.

## [SUMMARY]

### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form

### Note 1:

Read and understand the following important notes carefully before preparing your Research Proposal Document.

KAKENHI funding aims to promote scientific research in all fields based on original ideas of researchers. The grants provide financial support for creative and pioneering research projects that will become the foundation of social development.

In KAKENHI, research theme setting is at the applicant's discretion. As such, KAKENHI research proposals are evaluated based not only on their scientific significance, but also on their originality and creativity. Accordingly, in the Research Proposal Document forms for the "Scientific Research", "Early-Career Scientists" and "Research Activity Start-up" categories, applicants are required to state:

[MA]

- ✓ What kind of <u>key scientific question(s)</u> is set against the relevant <u>scientific background</u> (such as research trends and new developments)?
- ✓ What are the scientific originality and creativity of the proposal?
- ✓ What was the circumstances leading to the conception of the research idea?
- ✓ What are the research trends (domestic and overseas) and the positioning of this research in the relevant field?

In the review process, research proposals will be screened either by Comprehensive Review or Two-Stage Document Review. Reviewers strive to grasp the essence of the proposed research through exchange of opinions among them, evaluate such merits as scientific significance, originality and creativity, and comprehensively place their judgments taking account of the feasibility of the research plan and the applicant's ability to conduct research.

In applying for KAKENHI, applicants are advised to take note of the above, and to read the Application Procedures for Grants-in-Aid for Scientific Research and the explanations of review criteria and the annotations in the application form in preparing their Research Proposal Documents, so that the scientific merits and other points in the research proposal will be appropriately conveyed to the reviewers.

### Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

Scientific Research (C) (General) 2 [1. Research Objectives, Research Method, etc. (continued from the previous page)]

Scientific Research (C) (General) 3 [1. Research Objectives, Research Method, etc. (continued from the previous page)]

Scientific Research (C) (General) 4 [1. Research Objectives, Research Method, etc. (continued from the previous page)]

### 2. Applicant's Ability to Conduct the Research and the Research Environment

Descriptions of (1) applicant's hitherto research activities, and (2) research environments including research facilities and equipment, research materials, etc. relevant to the conduct of the proposed research should be given within 2 pages to show the feasibility of the research plan by the applicant (PI) (and Co-I(s), if any).

If the applicant has conducted any international efforts related to his/her research plan (such as his/her records of joint international research and research history in overseas institutions), they should be included as necessary in "(1) applicant's hitherto research activities". Also, if the applicant has taken leave of absence from research activity for some period, he/she may choose to write about it therein.

\*Delete this entire text box when completing this form.

### \* Note:

- 1. The description in this column is to explain the feasibility of the research plan. On citing research achievements (research papers, books, patents, invited talks, etc.) they should be given not as an exhaustive list but as supporting evidence to prove the applicant's ability to conduct the proposed research.
- 2. Sufficient information should be given so that the reviewers can identify the research achievements.
- 3. (In the case of a research paper, for example, the relevant information, including the title of the paper, the author(s), the title and the volume of the journal, the publication year, and the pages of the article should be given; in the case of a book, the bibliographic and other information should be provided.) The research papers that can be cited are only those already published or accepted for publication.

Scientific Research (C) (General) 6 [2. Applicant's Ability to Conduct the Research and the Research Environment (continued from the previous page)]

## 3. Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations

(cf. Application Procedures for Grants-in-Aid for Scientific Research)

If the proposed research involves such issues that require obtaining the consent and/or cooperation of third parties, consideration in handling of personal information, or actions related bioethics and/or biosafety, including the laws, regulations and the guidelines in the country/region(s) where the joint international research is to be conducted, describe the measures and actions planned to be taken in responding to these issues within 1 page.

This provision applies to research activities that would require approval by an internal or external ethical jury, such as research involving handling of personal information from questionnaire surveys, interviews and/or behavior surveys, including personal histories and images, handling of donated specimens, human genome analysis, recombinant DNA, and experimentation with animals. If the activities of the proposed research do not fall under such categories, enter "N/A (not applicable)".

# 4. Items to be Entered When New Application is Made in the Fiscal Year Previous to the Final Year of the Research Period of an On-Going KAKENHI Project

(For an application that comes under this category, this column is a mandatory entry. (cf. Application Procedures for Grants-in-Aid for Scientific Research))

The applicant should give within 1 page: (1) the relevant information on the on-going project (for which FY2024 is the final year of the research period) including the original plan at the time of application/adoption and the research accomplishment such as new knowledge acquired, and (2) the reason why he/she is submitting this new proposal for FY2024 on top of the on-going project (in terms of the development of the on-going research, necessity of new research budget, etc.). If not applicable, leave this page blank. (Do not delete the page.)

Research Category	Project Number	Title of the Research Project	Research Period

### 1. Research Objectives, Research Method, etc.

This research proposal will be reviewed in the Basic Section of the applicant's choice. In filling this application form, refer to the Application Procedures for Grants-in-Aid for Scientific Research-KAKENHI-.

Research objectives, research method, etc. should be described within 4 pages.

A succinct summary of the research proposal should be given at the beginning.

The main text should give descriptions, in concrete and clear terms, of (1) scientific background for the proposed research, and the "key scientific question" comprising the core of the research plan, (2) the purpose, scientific originality, and creativity of the research project, (3) the circumstances leading to conception of the present research proposal, domestic and overseas trends related to the proposed research and the positioning of this research in the relevant field, (4) what will be elucidated, and to what extent and how will it be pursued during the research period, and (5) preparation status towards achievement of the purpose of the research project.

### [SUMMARY]

### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

### Note 1:

l. Read and understand the following important notes carefully before preparing your Research Proposal Document.

KAKENHI funding aims to promote scientific research in all fields based on original ideas of researchers. The grants provide financial support for creative and pioneering research projects that will become the foundation of social development.

In KAKENHI, research theme setting is at the applicant's discretion. As such, KAKENHI research proposals are evaluated based not only on their scientific significance, but also on their originality and creativity. Accordingly, in the Research Proposal Document forms for the "Scientific Research", "Early-Career Scientists" and "Research Activity Start-up" categories, applicants are required to state:

[MA]

- What kind of key scientific question(s) is set against the relevant scientific background (such as research trends and new developments)?
- ✓ What are the scientific originality and creativity of the proposal?
- ✓ What was the circumstances leading to the conception of the research idea?
- ✓ What are the research trends (domestic and overseas) and the positioning of this research in the relevant field?

In the review process, research proposals will be screened either by Comprehensive Review or Two-Stage Document Review. Reviewers strive to grasp the essence of the proposed research through exchange of opinions among them, evaluate such merits as scientific significance, originality and creativity, and comprehensively place their judgments taking account of the feasibility of the research plan and the applicant's ability to conduct research.

In applying for KAKENHI, applicants are advised to take note of the above, and to read the Application Procedures for Grants-in-Aid for Scientific Research and the explanations of review criteria and the annotations in the application form in preparing their Research Proposal Documents, so that the scientific merits and other points in the research proposal will be appropriately conveyed to the reviewers.

### Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

[1. Research Objectives, Research Method, etc. (continued from the previous page)]

[1. Research Objectives, Research Method, etc. (continued from the previous page)]

[1. Research Objectives, Research Method, etc. (continued from the previous page)]

## 2. Applicant's Ability to Conduct the Research and the Research Environment

Descriptions of (1) applicant's hitherto research activities, and (2) research environments including research facilities and equipment, research materials, etc. relevant to the conduct of the proposed research should be given within 2 pages to show the feasibility of the research plan by the applicant (Principal Investigator).

If the applicant has conducted any international efforts related to his/her research plan (such as his/her records of joint international research and research history in overseas institutions), they should be included as necessary in "(1) applicant's hitherto research activities". Also, if the applicant has taken leave of absence from research activity for some period, he/she may choose to write about it therein.

# FY2024 Procedures for Preparing and Entering a Research Proposal Document for "Challenging Research (Pioneering)" (New Proposal)

Applicants for the KAKENHI should fill in this Research Proposal Document, giving details of the research project based on the Application Procedures, and submit it to the Independent Administrative Legal Entity Japan Society for the Promotion of Science (hereinafter referred to as JSPS) prior to application. **This Research Proposal Document is used as a review material at the JSPS Scientific Research Grant Committee.** 

The applicant should fill in the form correctly, while taking the following points into account.

When the application is adopted as a result of the review at the Scientific Research Grant Committee, a notice concerning the provisional grant decision will be issued. By the form of the formal application for grant delivery, the submission based on the notice will be done. The KAKENHI will be disbursed if the research plan, etc. are acknowledged as appropriate.

### Items to be noted

- \* This Procedures for Preparing and Entering is to be used to prepare Research Proposal Document for "Challenging Research (Pioneering)" reviewed by the "Medium-sized Section" as "New Application".
- \* When preparing the Research Proposal Document, the Principal Investigator should make the preparations with responsibility, in accordance with the rules set forth in the Application Procedures.
- \* Characters and symbols in 11-point font size or larger (10-point or larger in English) should be used in the main text, considering a large number of application forms for research project will be reviewed.
- \* The Research Proposal Document consists of "items to be entered in the website" and "forms to be uploaded".
- \* Make sure that the title of each column is at the top of the page. Also, do not exceed the number of pages specified for each item. As a result of filling according to the instructions of each item, blank pages may be generated but in that case, do not delete them.
- \* The sentences important notes on the form should be deleted but do not delete other instructions and boxes.
- \* Research Proposal Document prepared in English will be accepted.
- \* Before submitting, be sure to check whether the contents of the Research Proposal Document converted to the PDF file and the content shown in the "Status of Application and Acquisition of Research Grants" column are complete (missing characters, charts, garbled characters, etc.).

### I. Research Proposal Document (items to be entered in the website)

The following items are "to be entered in the website" of the "Research Proposal Document". When preparing their applications, Principal Investigators should access the JSPS Electronic Application System for Projects Funded by KAKENHI (hereinafter referred to as "Electronic Application System") using their ID and password for the "Cross-Ministerial Research and Development Management System (e-Rad)", which has been provided by the research institution to which they belong, and directly enter their data.

The items to be entered in the website constitute the first part ("Section desired the review", "Name of Principal Investigator (PI)", etc.) and the second part ("Research Expenditures and Their Necessity", "The Status of Application and Acquisition of Research Grants") of the Research Proposal Document that is prepared using the

Electronic Application System.

The "Status of Application and Acquisition of Research Grants" column will not be shown in the Research Proposal Document PDF file. Instead, the content shown on the electronic application system will be reviewed.

For procedures for entering items to be entered in the website, refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document" (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

- o Items to be entered in the Website (First half)
- "Research Project Information"
- Section desired the review
- · Name of the Principal Investigator
- · Position, Academic Unit (School, Faculty, etc.), and Research Institution
- Title of the Research Project
- Research Abstract
- · Request for Disclosure
- Project Members (PI and Co-Investigator(s) (Co-I(s)))
- o Items to be entered in the Website (Second half)
- "Research Expenditures and Their Necessity"
- · Research Expenditure
- Details of Equipment Costs
- Details of Consumables Expenses
- Details of Travel Expenses, Personnel Cost/Honoraria and Miscellaneous Expenses

"The Status of Application and Acquisition of Research Grants"

• The Status of Application and Acquisition of Research Grants

### II. Research Proposal Document (forms to be uploaded)

As for this research category, two kinds of form need to be prepared, which are the [Form S-41-1] constitute of the "Research Proposal Document (Outline)" and the [Form S-41-2] constitute of the "Research Proposal Document (Main body)"

The Principal Investigator should download the "Research Proposal Document (forms to be uploaded)" from the JSPS website for Grants-in-Aid for Scientific Research, and fill it in. He/She should then access the "Electronic Application System", and upload the filled-in file to the "Electronic Application System". (Files above 5 MB cannot be uploaded.)

When preparing the Overall Research Plan, the instructions given below and the instructions given in each column should be observed. The margin of style is set with upper 20 mm, lower 20 mm, left 25 mm, and right 25 mm. Do not change the setting margins because there is a risk of missing characters etc. when preparing the review material.

### 1. [Form S-41-1]

### "Summary of Research Proposal Document" column

The description should be given in accordance with the instruction specified in the Research Proposal Document. In this research category, the preliminary screening will be conducted using only the "Research Proposal Document (Outline)" which consists of this form and the first half of the Research Proposal Document (items to be entered in the Website). Preliminary screening will not be conducted for any Review Section with a small number of applications. It is necessary to prepare this form and the [Form S-41-2] separately since this form is unable to be referred in the document review and the panel review. For example, the necessary figures should be drawn on each form separately since the figures on this form are unable to be cited on the [Form S-41-2].

### 2. [Form S-41-2]

This form constitutes a middle part of the Research Proposal Document (Main body) in the PDF file.

# (1) "Research Objectives and Research Method", "Significance as Challenging Research (Reason for applying for this research category)", "Applicant's Ability to Conduct the Research" column

The "Applicant's Ability to Conduct the Research" column does not require you to describe the details of research achievements (research papers, books, patents, invited talks, etc.) exhaustively. On citing papers etc. as necessary, for example, in the case of an article, fill in the information such as the title of the paper, the author(s), the title and the volume of the journal, the publication year, and the pages of the article so that the reviewers can identify the paper. Any international efforts related to the applicant's research plan (such as his/her records of joint international research history in overseas institutions) should be included as necessary.

In the "Research Objectives and Research Method" column, etc., provide information on the Research Collaborators as necessary in describing the overall research plan.

## (2) "Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations" column

Enter in accordance with the instruction specified in the Research Proposal Document. If the proposed research does not fall under such categories, enter "N/A (not applicable)".

\* When entering in the column of "Research Expenditure and Their Necessity" and "The Status of Application and Acquisition of Research Grants", refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

### Challenging Research (Pioneering) (Outline) 1

### **Summary of Research Proposal Document**

The summary should include the contents of "1. Research Objectives and Research Method", "2. Significance as Challenging Research (Reason for applying for this research category)", and "3. Applicant's Ability to Conduct the Research" in the research proposal document within 2 pages.

\* In this research category, the preliminary screening will be conducted using only the "Research Proposal Document (Outline)" which consists of this form and the first half of the Research Proposal Document (items to be entered in the Website). Preliminary screening will not be conducted for any Review Section with a small number of applications. Take note that this form is unable to be referred at the document review and the panel review.

### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

### \* *Note 1:*

- 1. This research category calls for a challenging research with the potential of radically transforming the existing research framework and/or changing the research direction. Make sure that your research plan is consistent with the purpose of the research category.
- 2. Proposals submitted to the research category Challenging Research (Pioneering) will be reviewed in the pertaining Medium-sized Section of the Review Section Table. The proposal document should be prepared with consideration that it will be reviewed from diverse viewpoints by a review committee consisting of reviewers with different backgrounds.
- 3. In the research category Challenging Research (Pioneering), the preliminary screening will be conducted only by the "Research Proposal Document (Outline)" which is made up by adding the first half of the Research Proposal Document (items to be entered in the Website) to the form ("Outline of Research Proposal Document" column) (Preliminary screening will not be conducted for any Review Section with a small number of applications). Take note that this form is unable to be referred at the document review and the panel review.

### \* Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

### 1. Research Objectives and Research Method

This research category is reviewed by the Medium-sized Section of the Review Section Table. Please note that your Research Proposal Document is reviewed by review committee in a wide range of fields from a multilateral perspective. Describe the following points focused on concretely and clearly within 3 pages.

Objectives of this research

- 2. Research Method that the objective can be achieved (including each role of Researchers in Project Members List and Research Collaborators).
- 3. Status on the current research environment such as research facilities, equipment, research materials, etc. used to implement this research (In the case that the research environment changes greatly due to transfer or retirement during the research period, securing place and implementation method etc. should be described.

### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

### \* Note 1:

- 1. This research category calls for a challenging research with the potential of radically transforming the existing research framework and/or changing the research direction. Make sure that your research plan is consistent with the purpose of the research category.
- 2. Proposals submitted to the research category Challenging Research (Pioneering) will be reviewed in the pertaining Medium-sized Section of the Review Section Table. The proposal document should be prepared with consideration that it will be reviewed from diverse viewpoints by a review committee consisting of reviewers with different backgrounds.
- 3. In the research category Challenging Research (Pioneering), the preliminary screening will be conducted only by the "Research Proposal Document (Outline)" which is made up by adding the first half of the Research Proposal Document (items to be entered in the Website) to the form S-41-1 ("Outline of Research Proposal Document" column) (Preliminary screening will not be conducted for any Review Section with a small number of applications).
- 4. <u>It is necessary to prepare the form S-41-1 ("Outline of Research Proposal Document" column) and this form separately</u> since the form S-41-1 ("Outline of Research Proposal Document" column) is unable to be referred in the document review and the panel review. For example, the necessary figures should be drawn on each form separately since the figures on the form S-41-1 ("Outline of Research Proposal Document" column) are unable to be cited on this form.

### \* Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

Challenging Research (Pioneering) 2
[1. Research Objectives and Research Method (continued from the previous page)]

Challenging Research (Pioneering) 3
[1. Research Objectives and Research Method (continued from the previous page)]

## 2. Significance as Challenging Research (Reason for applying for this research category)

This research category calls for a challenging research with the potential of radically transforming the existing research framework and/or changing the research direction.

- Describe the following points within 1 page.

  1. Applicant's research background and history leading to the conception of this research proposal based on applicant's hitherto research activities
- Based on the current research situation, what significance does this research concept have as a challenging research

#### 3. Applicant's Ability to Conduct the Research

Describe the concrete contents of applicant's hitherto research activities etc. within 1 page to show applicant's ability to conduct the proposed research. If necessary, applicant may include those not directly related to proposed research. If the applicant has conducted any international efforts related to his/her research plan (such as his/her records of joint international research and research history in overseas institutions), they should be included as necessary therein. Also, if the applicant has taken leave of absence from research activity for some period, he/she may choose to write about it therein.

\*Delete this entire text box when completing this form.

#### \* Note:

1. The description in this column does not require you to describe the details of research achievements (research papers, books, patents, invited talks, etc.) exhaustively. On citing papers etc. as necessary, for example, in the case of an article, fill in the information such as the title of the paper, the author(s), the title and the volume of the journal, the publication year, and the pages of the article so that the reviewers can identify the paper.

#### Challenging Research (Pioneering) 6

#### 4. Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations

(cf. Application Procedures for Grants-in-Aid for Scientific Research)

If the proposed research involves such issues that require obtaining the consent and/or cooperation of third parties, consideration in handling of personal information, or actions related bioethics and/or biosafety, including the laws, regulations and the guidelines in the country/region(s) where the joint international research is to be conducted, describe the measures and actions planned to be taken in responding to these issues within 1 page.

This provision applies to research activities that would require approval by an internal or external ethical jury, such as research involving handling of personal information from questionnaire surveys, interviews and/or behavior surveys, including personal histories and images, handling of donated specimens, human genome analysis, recombinant DNA, and experimentation with animals. If the activities of the proposed research do not fall under such categories, enter "N/A (not applicable)".

## FY2024 Procedures for Preparing and Entering a Research Proposal Document for "Challenging Research (Exploratory)" (New Proposal)

Applicants for the KAKENHI should fill in this Research Proposal Document, giving details of the research project based on the Application Procedures, and submit it to the Independent Administrative Legal Entity Japan Society for the Promotion of Science (hereinafter referred to as JSPS) prior to application. **This Research Proposal Document is used as a review material at the JSPS Scientific Research Grant Committee.** 

The applicant should fill in the form correctly, while taking the following points into account.

When the application is adopted as a result of the review at the Scientific Research Grant Committee, a notice concerning the provisional grant decision will be issued. By the form of the formal application for grant delivery, the submission based on the notice will be done. The KAKENHI will be disbursed if the research plan, etc. are acknowledged as appropriate.

#### Items to be noted

- \* This Procedures for Preparing and Entering is to be used to prepare Research Proposal Document for "Challenging Research (Exploratory)" reviewed by the "Medium-sized Section" as "New Application".
- \* When preparing the Research Proposal Document, the Principal Investigator should make the preparations with responsibility, in accordance with the rules set forth in the Application Procedures.
- \* Characters and symbols in 11-point font size or larger (10-point or larger in English) should be used in the main text, considering a large number of application forms for research project will be reviewed.
- \* The Research Proposal Document consists of "items to be entered in the website" and "forms to be uploaded".
- \* Make sure that the title of each column is at the top of the page. Also, do not exceed the number of pages specified for each item. As a result of filling according to the instructions of each item, blank pages may be generated but in that case, do not delete them.
- \* The sentences important notes on the form should be deleted but do not delete other instructions and boxes.
- \* Research Proposal Document prepared in English will be accepted.
- \* Before submitting, be sure to check whether the contents of the Research Proposal Document converted to the PDF file and the content shown in the "Status of Application and Acquisition of Research Grants" column are complete (missing characters, charts, garbled characters, etc.).

#### I. Research Proposal Document (items to be entered in the website)

The following items are "to be entered in the website" of the "Research Proposal Document". When preparing their applications, Principal Investigators should access the JSPS Electronic Application System for Projects Funded by KAKENHI (hereinafter referred to as "Electronic Application System") using their ID and password for the "Cross-Ministerial Research and Development Management System (e-Rad)", which has been provided by the research institution to which they belong, and directly enter their data.

The items to be entered in the website constitute the first part ("Section desired the review", "Name of Principal Investigator (PI)", etc.) and the second part ("Research Expenditures and Their Necessity", "The Status of Application and Acquisition of Research Grants") of the Research Proposal Document that is prepared using the

Electronic Application System.

The "Status of Application and Acquisition of Research Grants" column will not be shown in the Research Proposal Document PDF file. Instead, the content shown on the electronic application system will be reviewed.

For procedures for entering items to be entered in the website, refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document" (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

o Items to be entered in the Website (First half)

"Research Project Information"

- · Section desired the review
- · Name of the Principal Investigator
- · Position, Academic Unit (School, Faculty, etc.), and Research Institution
- Title of the Research Project
- Research Abstract
- · Request for Disclosure
- Project Members (PI and Co-Investigator(s) (Co-I(s)))
- o Items to be entered in the Website (Second half)
- "Research Expenditures and Their Necessity"
- Research Expenditure
- Details of Equipment Costs
- Details of Consumables Expenses
- Details of Travel Expenses, Personnel Cost/Honoraria and Miscellaneous Expenses

"The Status of Application and Acquisition of Research Grants"

• The Status of Application and Acquisition of Research Grants

#### II. Research Proposal Document (forms to be uploaded)

As for this research category, two kinds of form need to be prepared, which are the [Form S-42-1] constitute of the "Research Proposal Document (Outline)" and the [Form S-42-2] constitute of the "Research Proposal Document (Main body)"

The Principal Investigator should download the "Research Proposal Document (forms to be uploaded)" from the JSPS website for Grants-in-Aid for Scientific Research, and fill it in. He/she should then access the "Electronic Application System", and upload the filled-in file to the "Electronic Application System". (Files above 5 MB cannot be uploaded.)

When preparing the Overall Research Plan, the instructions given below and the instructions given in each column should be observed. The margin of style is set with upper 20 mm, lower 20 mm, left 25 mm, and right 25 mm. Do not change the setting margins because there is a risk of missing characters etc. when preparing the review material.

#### 1. [Form S-42-1]

#### "Summary of Research Proposal Document" column

The description should be given in accordance with the instruction specified in the Research Proposal Document. In this research category, the preliminary screening will be conducted using only the "Research Proposal Document (Outline)" which consists of this form and the first half of the Research Proposal Document (items to be entered in the Website). Preliminary screening will not be conducted for any Review Section with a small number of applications. It is necessary to prepare this form and the [Form S-42-2] separately since this form is unable to be referred in the document review. For example, the necessary figures should be drawn on each form separately since the figures on this form are unable to be cited on the [Form S-42-2].

#### 2. [Form S-42-2]

This form constitutes a middle part of the Research Proposal Document (Main body) in the PDF file.

## (1) "Research Objectives and Research Method, Applicant's Ability to Conduct the Research", "Significance as Challenging Research (Reason for applying for this research category)", column

The "Applicant's Ability to Conduct the Research" column does not require you to describe the details of research achievements (research papers, books, patents, invited talks, etc.) exhaustively. On citing papers etc. as necessary, for example, in the case of an article, fill in the information such as the title of the paper, the author(s), the title and the volume of the journal, the publication year, and the pages of the article so that the reviewers can identify the paper. Any international efforts related to the applicant's research plan (such as his/her records of joint international research history in overseas institutions) should be included as necessary.

In the "Research Objectives and Research Method" column, etc., provide information on the Research Collaborators as necessary in describing the overall research plan.

### (2) "Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations" column

Enter in accordance with the instruction specified in the Research Proposal Document. If the proposed research does not fall under such categories, enter "N/A (not applicable)".

\* When entering in the column of "Research Expenditure and Their Necessity" and "The Status of Application and Acquisition of Research Grants", refer to the "FY2024 Procedures for Preparing and Entering a Research Proposal Document (items to be entered in the website) ("Scientific Research (A/B/C)", "Challenging Research (Pioneering/Exploratory)", "Early-Career Scientists").

#### Challenging Research (Exploratory) (Outline) 1

#### **Summary of Research Proposal Document**

The summary should include the contents of "1. Research Objectives and Research Method, Applicant's Ability to Conduct the Research" and "2. Significance as Challenging Research (Reason for applying for this research category)" in the research proposal document within 2 pages.

\*In this research category, the preliminary screening will be conducted using only the "Research Proposal Document (Outline)" which consists of this form and the first half of the Research Proposal Document (items to be entered in the Website). Preliminary screening will not be conducted for any Review Section with a small number of applications. Take note that this form is unable to be referred at the document review.

#### Notes to observe when preparing the Research Proposal Document

\*Delete this entire text box when completing this form.

#### \* Note 1:

- 1. This research category calls for a challenging research with the potential of radically transforming the existing research framework and/or changing the research direction. (The scope of the (Exploratory) category encompasses research proposals that are highly exploratory and/or are in their budding stages.) Make sure that your research plan is consistent with the purpose of the research category.
- 2. Proposals submitted to the research category Challenging Research (Exploratory) will be reviewed in the pertaining Medium-sized Section of the Review Section Table. The proposal document should be prepared with consideration that it will be reviewed from diverse viewpoints by a review committee consisting of reviewers with different backgrounds.
- 3. In the research category Challenging Research (Exploratory), the preliminary screening will be conducted only by the "Research Proposal Document (Outline)" which is made up by adding the first half of the Research Proposal Document (items to be entered in the Website) to the form ("Outline of Research Proposal Document" column) (Preliminary screening will not be conducted for any Review Section with a small number of applications). Take note that this form is unable to be referred at the document review.

#### \* Note 2:

- 1. Read the "Procedures for Preparing and Entering a Research Proposal Document" before preparing this form.
- 2. Complete the form using font size 10-point or larger.
- 3. The title and instructions on the upper part of each page should be left intact.
- 4. Do not exceed the maximum number of pages specified in the instructions. Therefore, if there are any blank page(s), leave them as they are (do not delete any page).

#### 1. Research Objectives and Research Method, Applicant's Ability to Conduct the Research

This research category is reviewed by the Medium-sized Section of the Review Section Table. Please note that your Research Proposal Document is reviewed by review committee in a wide range of fields from a multilateral perspective.

Describe the following points focused on concretely and clearly within 2 pages.

- 1. Objectives of this research
- 2. Research Method that the objective can be achieved (including each role of Researchers in Project Members List and Research Collaborators).
- 3. Applicant's Ability to Conduct the Research (If necessary, applicant may include those not directly related to proposed research therin (i.e. the concrete contents of applicant's hitherto research activities). If the applicant has conducted any international efforts related to his/her research plan (such as his/her records of joint international research and research history in overseas institutions), they should be included as necessary therein.)

Challenging Research (Exploratory) 2 [1. Research Objectives and Research Method, Applicant's Ability to Conduct the Research (continued from the previous page)]

### Challenging Research (Exploratory) 3

#### 2. Significance as Challenging Research (Reason for applying for this research category)

This research category calls for a challenging research with the potential of radically transforming the existing research framework and/or changing the research direction.

Describe the following points within 1 page.

- 1. Applicant's research background and history leading to the conception of this research proposal based on applicant's hitherto research activities
- 2. Based on the current research situation, what significance does this research concept have as Challenging Research (If the research plan is highly exploratory and/or is in their budding stages, whether the plan has a possibility as Challenging Research).

#### Challenging Research (Exploratory) 4

#### 3. Issues Relevant to the Protection of Human Right and Compliance with Laws and Regulations

(cf. Application Procedures for Grants-in-Aid for Scientific Research)

If the proposed research involves such issues that require obtaining the consent and/or cooperation of third parties, consideration in handling of personal information, or actions related bioethics and/or biosafety, including the laws, regulations and the guidelines in the country/region(s) where the joint international research is to be conducted, describe the measures and actions planned to be taken in responding to these issues within 1 page.

This provision applies to research activities that would require approval by an internal or external ethical jury, such as research involving handling of personal information from questionnaire surveys, interviews and/or behavior surveys, including personal histories and images, handling of donated specimens, human genome analysis, recombinant DNA, and experimentation with animals.

If the activities of the proposed research do not fall under such categories, enter "N/A (not applicable)".

# FY2024 Procedures for Preparing and Entering a Research Proposal Document (items to be entered in the Website)

# (Grant-in-Aid for Scientific Research (A/B/C), Challenging Research (Pioneering/Exploratory), and Early-Career Scientists)

The confirmation of the content of the application and the preparation of the review material is based on the "Research Proposal Document", which constitutes one part of the application documents. Consequently, it is possible that the information entered in the website will have an influence on the results of the review, or it is possible that the research project will not be accepted for review, because of the content entered. Therefore, the applicant should prepare the Research Proposal Document with care.

Also, a part of content entered (title of Proposed Research Project, information of project member, effort, etc.) will be provided to the e-Rad.

Select "application information input" of the research category for which an application is made from the "List of Research Categories for which Applications are accepted" in the electronic application system. The "Management of Research Proposal Document" screen will be displayed. Next, please select "application information input" in the entered application information ("Research Project Information", "Research Expenditure and Their Necessity", "The Status of Application and Acquisition of Research Grants"). The respective input screen will be displayed. If you apply for Early-Career Scientists, after selecting the application requirements on the "Confirmation of Application Requirements" screen, the "application information input" screen will be displayed. On the screen of each input, if the "Japanese" English" button at the upper left of the screen is clicked, then the explanations are translated into English.

#### "Confirmation of Application Requirements" screen

#### 1. Application Requirements

[These are items which need to be entered when applying for "Early-Career Scientists".]

Please select the following appropriate application requirement.

- "(1) As of April 1, 2024, Ph.D. acquired less than 8 years",
- "(2) It is planned to acquire Ph.D. by April 1, 2024, although it is not acquired Ph.D.",
- "(3) As of April 1, 2024 years acquired Ph.D. except the period of maternity and/or childcare leave less than 8 years". If you select "(2) It is planned to acquire Ph.D. by April 1, 2024, although it is not acquired Ph.D.", please enter "Ph.D. Acquisition Planned Date", and "Research institute where applicant is planned to acquire Ph.D.". (This content is not converted to the PDF file.)

If you select "(3) As of April 1, 2024 years acquired Ph.D. except period of maternity and/or childcare leave less than 8 years", please enter "Period taken for Maternity/Childcare Leave". (This content is not converted to the PDF file.)

#### "Research Project Information" input screen

1. Research proposal submission in the fiscal year previous to the final fiscal year of the research period of an on-going research project

These are the items that need to be entered when applying for Scientific Research (Scientific Research

#### (A/B/C) ("General")]

The applicant should select the appropriate item from among "Not Applying" and "Applying".

Moreover, if the applicant selects "Applying", it is limited to research projects that fall under "Research proposal submission in the fiscal year previous to the final fiscal year of the research period of an on-going research project (Refer to the Application Procedures for Grants-in-Aid for Scientific Research)". If he/she makes an application under the category "Research proposal submission in the fiscal year previous to the final fiscal year of the research period of an on-going research project", he/she should enter the project number of the Grant-in-Aid (continued) of which FY2024 is the final fiscal year (i.e., the project number of the on-going research project on which the new application is based). Moreover, he/she should be sure to fill in the necessary information in the column "Items to be Entered When New Application is Made in the Fiscal Year Previous to the Final Year of the Research Period of an On-Going KAKENHI Project" of the Research Proposal Document (forms to be uploaded) he/she is preparing.

#### 2. Section Desired the Review

In "Grants-in-Aid for Scientific Research-KAKENHI-, Review Section Table" (hereinafter referred to as "Review Section Table") which appears in the "List" on the electronic application system, please enter a review section which you wish to be reviewed.

The section to be selected depends on the research category you apply.

\* For Basic Sections to be reviewed jointly in Scientific Research (B), research proposal documents (PDF files) submitted to those Basic Sections will be sent to the reviewers without displaying any information pertaining to the Basic Section in order to ensure appropriate review as a Section subject to joint review, not as an independent Basic Section.

#### 3. Name of the Principal Investigator

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator in question should verify whether his/her name has been displayed correctly. If there is an error, please temporarily save the input data, then contact the secretariat of your research institution and follow the instructions.

#### 4. Research Institution, Academic Unit (School, Faculty, etc.) and Position

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator should verify whether the information on his/her professional affiliation has been displayed correctly at the time he/she is preparing the Research Proposal Document. If there is an error, please temporarily save the input data, then contact the secretariat of your research institution and follow the instructions.

#### 5. Academic Degree and Effort

(These are items which need to be entered when applying for "Early-Career Scientists".)

The applicant should enter the time allocation rate (an integral number between 1 and 100) in the column "Effort",

assuming that the research project for which the current application is being made would be selected.

When determining the time allocation rate, the applicant should determine it keeping in mind the definition of "effort" by the Council for Science and Technology Policy. This definition is "the percentage of time allocation (%) necessary for the implementation of the research in question, if the total yearly working hours of the researcher is set at 100%". Moreover, the "total working hours" does not mean time spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

Moreover, when the research project for which the current application is being made is selected, the applicant will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort in e-Rad before formal application for grant delivery.

#### 6. Date of Ph.D. Acquisition

#### [These are items which need to be entered when applying for "Early-Career Scientists".]

The information on Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator in question should verify whether Date of Ph.D. Acquisition has been displayed correctly. If there is an error, please temporarily save the input data, then contact the secretariat of your research institution and follow the instructions.

#### 7. Application Requirements

#### [These are items which need to be entered when applying for "Early-Career Scientists".]

Please make sure whether entered application requirements are correctly displayed before you proceeded to "application information input" screen.

Please make sure whether "Ph.D. Acquisition Planned Date" and "Research institute where applicant is planned to acquire Ph.D." are correctly displayed, if you select "(2) It is planned to acquire Ph.D. by April 1, 2024, although it is not acquired Ph.D.".

Please make sure whether "Period taken for Maternity/Childcare Leave" is correctly displayed, if you select "(3) As of April 1, 2024 years acquired Ph.D. except the period of maternity and/or childcare leave less than 8 years".

#### 8. Title of the Research Project

In the column "Title of Proposed Research Project", the applicant should enter a title for the proposed research project. The title should express the content of the research until the end of the research period in concrete terms. (The applicant should avoid general or abstract expressions.) In giving a title to the research project, applicants should note that the entire Research Proposal Document, including the title of the research project will be reviewed and will be publicized widely in the Grants-in-Aid for Scientific Research (KAKENHI) Database (KAKEN) if the research proposal is adopted. Therefore, make sure to select a title that effectively reflects the content of your research project.

If your title includes double-byte characters, you can enter up to 80 bytes (40 double-byte characters); if you are using only single-byte characters, you can enter up to 200 bytes (200 single-byte characters).

Note that double-byte characters are counted as 2 bytes and single-byte characters are counted as 1 byte. Voiced sound symbols (*dakuten*) and semivoiced sound symbols (*handakuten*) are not counted independently as one

character, but that letters of the double-byte alphabet, numbers, symbols, etc. are all counted as 2 bytes and displayed as such. Bearing this in mind, applicants should avoid the use of chemical formulas and mathematical formulas as much as possible. (Example: "C a 2+" entered in double-byte characters will be counted as 8 bytes, whereas "Ca2+" will be 4 bytes.)

As a general rule, changes in the title of the research project will not be accepted.

#### 9. Research Abstract

## [These are the items that need to be entered when applying for "Scientific Research (A) "and"Challenging Research (Pioneering/Exploratory)".]

The applicant should enter the purpose of the research project, and the methods and other matters to achieve the purpose of the research in a clear manner (including significance as Challenging Research when applying for Challenging Research (Pioneering/Exploratory)). It is possible to enter these in Japanese or in English.

Furthermore, it is noted that the review will be conducted by Comprehensive Review from diverse viewpoints by a review committee consisting of reviewers with different backgrounds.

It is possible to enter up to 1000 bytes. (Double-byte characters are counted as 2 bytes and single-byte characters are counted as 1 byte).

#### 10. Request for disclosure

The applicant should select the appropriate item from among "Request for disclosure" or "Not Request for disclosure", for the results of review, in case his/her proposed project is not selected.

\* "Disclosure" of review results will be made through the electronic application system only to those applicants who have requested disclosure in advance (Except for the applicant, the results cannot be viewed by anyone including the person(s) belong to the research institution).

Once you select "Not Request for disclosure" JSPS will not disclose the review results for any reason whatsoever.

#### 11. Project Members List

## [These are items which need to be entered when applying for "Scientific Research (A/B/C)" and "Challenging Research (Pioneering/Exploratory)"]

Concerning the planned research of "Scientific Research (A/B/C)" and "Challenging Research (Pioneering/Exploratory)", as the occasion demands, it is possible to involve the "Co-Investigator", and the "Research Collaborator" in the research. For the definitions of "Principal Investigator", "Co-Investigator", "Research Collaborator", please refer to the Application Procedures for Grants-in-Aid for Scientific Research. In addition, the applicant should fill in the column "Project Members List" while keeping in mind the following points.

#### (1) Project Members Input (Principal Investigator)

- In the column "Distinction", it will be automatically displayed as "Principal Investigator".
- · In the column "Researcher Number", "Name (Pronunciation in katakana; Kanji, etc.)", "Age (as of April

- 1, 2024)", and "Research Institution, Academic Unit (School, Faculty, etc.), Position" of the Principal Investigator, the information on the Principal Investigator which has been registered in e-Rad will be automatically displayed. Principal Investigator should verify whether the information has been displayed correctly.
- In the column "Academic Degree", Principal Investigator should fill in his/her academic degree. Enter the last educational status only.
- In the column "Role in This Project", the Principal Investigator should fill in, how the Principal Investigator and the Co-Investigator(s) will cooperate to carry out the research, in a way that clarifies the respective connections between the researchers, and highlighting the allotment of research tasks in the research implementation plan FY2024. Principal Investigator should also enter those information of Co-Investigator.
- In the column "Research Expenditure for FY2024", the share of the grant to the Principal Investigator and the Co-Investigator(s) should be entered in units of thousand yen, based on the research plan. Principal Investigator should also enter those information of Co-Investigator.
  - The total amount of all the shares of the grant to each researcher should correspond to "Research Expenditure for FY2024 (Thousand Yen)" displayed in the screen. If it does not correspond, "error" is displayed on the confirmation screen after entering.
- In the column "Effort", the Principal Investigator should enter the time allocation rate (an integral number between 1 and 100), assuming that the research project for which the current application is being made would be adopted.

When determining the time allocation rate, the Principal Investigator should determine it keeping in mind the definition of "effort" by the Council for Science and Technology Policy. This definition is "the percentage of time allocation (%) necessary for the implementation of the research in question, if the entire yearly working time of the researcher is set at 100%". Moreover, the "entire working time" does not mean time spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

Moreover, when the research project for which the current application is being made is adopted, the Principal Investigator will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort in e-Rad before formal application for grant delivery.

#### (2) Project Members Input (Co-Investigator)

• Concerning the entry column for the Project Members List (Co-Investigator), when pressing the button "Add" on the left side of the entry screen one time for every member of the project, the edit box in which the data need to be entered is displayed.

The Principal Investigator should delete edit boxes for data entry that are not being used (when he/she entered data but finally does not use them, or when he/she did not enter data at all), by pressing the button "Delete" on the left side.

The column "Number of Project Members", displayed on the lowermost part of the screen is displayed automatically, according to the number of edit boxes for data entry.

If the number in the column "Number of Project Members" and the total number of persons for whom data have

actually been entered do not correspond, "error" is displayed on the confirmation screen, the data have been entered. Therefore, the applicant should always delete edit boxes for data in which no data has been entered.

- In the column "Distinction", it will be automatically displayed as "Co-I(s)".
- In the column "Researcher Number", "Name (Pronunciation in katakana; Kanji, etc.)", "Age (as of April 1, 2024)", and "Research Institution, Academic Unit (School, Faculty, etc.), Position" of the Co-Investigator, enter the researcher number of the Co-Investigator and click on the [Search] button, his/her information will be displayed, and click [OK] button.
  - Since the Co-Investigator may belong to more than one research institution, please ask the Co-Investigator at first to confirm which affiliation he/she wishes to list for the application.
- In the columns "Academic Degree" and "Effort", the contents which the Co-Investigator entered in the consent process of Co-Investigator will be displayed.
- In the columns "Role in This Project" and "Research Expenditure for FY2024", the Principal Investigator should enter the contents. (Please refer to the column "(1) Project Members Input (Principal Investigator)" for the entry method).

#### [About the Consent Process of Co-Investigator]

- The consent both from Co-Investigator him/herself and his/her research institution should be given on the electronic application system to list him/her on the project members as a Co-Investigator.
- To request other researchers to participate in the research project as Co-Investigators, check the checkbox at "Request" in the "Status of Consent" row and save it temporarily on the electronic application system. The researcher registered in the field is provisionally requested to participate in the research project as a Co-Investigator. In addition, please contact him/her that you had made the Co-Investigator request on the system.
- When the consent both from Co-Investigator him/herself and his/her research institution have been given, the "Status of Consent" will be changed to "Obtained the consent from the Co-Investigator" and "Obtained the consent from the institution".
- You cannot request the researcher to become a Co-Investigator whose status of consent is "Dissented by the Co-Investigator" or "Dissented by the Institution". Press [Delete] button on the left hand side of that column and delete the frame into which the data is being entered.
- When you request the researchers to become a Co-Investigator, your official request should be made based on the high probability in obtaining the consent from the Co-Investigator-to-be after surely confirming the following items with the researchers.
  - ① For this research project, the Co-Investigator has to bear responsibility for the implementation of the research project in cooperation with the Principal Investigator.
  - ② As well as the Co-Investigator understand and comply with both the KAKENHI supplementary conditions (funding conditions) and the terms stipulated in the (a), (b) and (c) below, and to receive a share of KAKENHI from the Principal Investigator and use it properly.
    - (a) The Co-Investigator has to recognize that citizens have placed trust in scientific research and that KAKENHI are funded with their tax, and you therefore have to use KAKENHI in a proper and efficient way and refrain from committing research misconduct during my research.
    - (b) The Co-Investigator has to fulfil the requirement for the research ethics education coursework either

by reading a textbook such as "For the Sound Development of Science - The Attitude of a Conscientious Scientist –" ("For the Sound Development of Science" Editorial Committee on JSPS), by taking an e-Learning course such as the "e-Learning Course on Research Ethics [eL CoRE] or "APRIN e-learning program (eAPRIN)", or by participating in the research ethics education course conducted at his/her institution based on the "Guidelines for Responding to Misconduct in Research" (Adopted August 26, 2014 by the MEXT), prior to the formal application for grant delivery (or, in case the grant has already been delivered, by the time the "application for approval of change for the Co-Investigator" is submitted by the Principal Investigator to JSPS).

- (c) The Co-Investigator has to understand thoroughly and confirm on what the researchers should consider, in conducting of their researches, from amongst the contents of both the statement "Code of Conduct for Scientists -Revised Version-" by the Science Council of Japan and the booklet "For the Sound Development of Science -The Attitude of a Conscientious Scientist-" by the JSPS, by the time of the formal application for grant delivery of the concerned research project. (Or, by the time when the "application for approval of change of the Co-Investigator" is to be submitted to the JSPS by the Principal Investigator, in case the official grant decision thereof has been already made.)
- \* Refer to the KAKENHI (Grants-in-Aid for Scientific Research) Electronic Application System Operation Manual (URL: <a href="https://www-shinsei.jsps.go.jp/kaken/topkakenhi/shinsei ka.html">https://www-shinsei.jsps.go.jp/kaken/topkakenhi/shinsei ka.html</a>) for the detailed information on the consent processes of the Co-Investigator such as operating environment, operating method, and so on.
  - (3) Joint researchers other than Co-Investigators become "Research Collaborators". Therefore, the applicant does not have to enter them in the Project Members List of the proposed project in question. When the applicant mention about Research Collaborator in the Research Proposal Document, if necessary, the applicant can mention them in a column where he/she explains the overall research plan, for example, in the column "Research Objectives, Research Method, etc.".

#### "Details of Research Expenditure and Their Necessity" input screen

#### 1. Details of Research Expenditure and Their Necessity

Please input the details of each expense required for this research proposal based on the Research Proposal Document (forms to be uploaded).

In that case, please pay attention to "Target expenditure (direct expense)" and "Ineligible expenditure" described below. Also, please be aware that research plan with research expenditure less than 100,000 yen in any year of the research period will not be eligible for call for proposal.

#### "Target expenditure (direct expense)"

The expenditure necessary for the implementation of the research plan (including the budget necessary for summarizing the research achievements) is eligible.

#### "Ineligible expenditure"

The following expenditures are not included in the funding:

- ① Expenditure for buildings and other facilities (excluding the expenditure for installations which became necessary because of the introduction of goods that have been purchased by means of direct expense)
- ② Expenditure for handling accidents or disasters that occurred during the implementation of funded project
- ③ Personnel cost/Honoraria for the Principal Investigator or Co-Investigator(s)
- 4 Other expenditure which fall under indirect expense\*
- \* Indirect expense is expenditure necessary for the management of the research institution and other things that arise during the implementation of the research project (corresponding with 30% of the amount of the direct expense). The expenditure is used by the research institution.

This time, it is scheduled to set up indirect expense for the research categories for which a call for proposals is organized. However, the Principal Investigator does not need to state that indirect expense in the Research Proposal Document.

Research expenditure and usage breakdown are automatically calculated from the details of each expense. In the detail column of each expenditure, the data input column is displayed by pressing the "Add" button necessary times on the left side of the input screen. For data entry fields that you do not use (if you have entered but do not use it or if you did not enter at all), please delete the data entry field by pressing the "Delete" button on the left side. Please enter the amount in thousand yen units rounding off fractions smaller than one thousand yen. After completing the input of all the details of each expense, please click the recalculate button. And the output in PDF will be the upper limit to 2 pages.

Please note the following points when entering details of each expense. However, the way to journalize each expense should be handled in accordance with such as the accounting rules of the research institutions to which you belong including but not limited to the following examples.

#### Equipment Costs

When purchasing a large number of books and/or materials, please input, to some extent, the contents of the books and/or materials to clarify what they are, such as "the books related to the Western medieval political history" (As for the books, the same way to journalize should be applied even if they were not handled as equipment.). Also, in the case of the machinery and equipment, not only enter simply with a set of something but also with its breakdown.

#### Consumables Expenses

Please enter for each product name such as chemicals, laboratory animals, glassware, etc.

#### o Necessity of the Equipment Costs and the Consumables Expenses

Please enter the necessity and the basis of the estimation for the equipment costs and consumables expenses you have inputted. In any fiscal year of this research period, if the "equipment costs" exceeds 90% of the total research expenditure in any FY of the period and there is expenditure which accounts for a particularly large proportion in "consumables expenses", you must enter the necessity of the expenditure to carry out the research. In addition, in such cases as equipment were purchased by the combined use from the grants, enter into the column of unit price

the amount using for this concerned research project together with mentioning to the effect that this is the combined use.

#### Domestic and Overseas Travel Expenses

As for the domestic and overseas travel expenses for Principal Investigator, Co-Investigator(s), and Research Collaborators (data collection, various investigations, meetings of research, announcement of results of research, etc.), please enter the expenditures (transportation fee, accommodation fee and daily allowance), etc. for each matter.

#### o Personnel Cost/Honoraria

Please enter the expenditures for each matter such as honoraria, compensation, wages and salaries to Research Collaborator(s) (postdoctoral researchers, research assistants (RA), researchers belonging to overseas research institutions, and others) who engaged in organizing materials, assisting in experiments, performing translation or proofreading, providing technical knowledge, distributing and collecting questionnaires and collecting information materials for research), and payment to temporary staff agencies. In addition, enter the status at the time of collaboration (such as project assistant professor, postdoctoral fellow, student in Doctoral course/Master's course) of the people to whom the personnel cost or honoraria to be paid if it is obvious.

(Example) Organizing materials: [breakdown: X (number of students in Doctoral courses) × Y (number of months)] = XXXX yen. (Refer to the Application Procedures for Grants-in-Aid for Scientific Research.)

#### Miscellaneous Expenses

Except for equipment cost, consumables expenses, travel expenses, personnel cost/honoraria, please enter the expenditures to carry out the research (e.g. the costs for printing, photocopying, developing/printing, correspondence (stamps and phone calls), transport, renting or leasing the research facilities (only where the grant-aided project cannot be conducted in the facilities of the research institution), meetings (rental of the venue and meals (excluding alcohol)), equipment rental (e.g. computers, automobiles, experimental equipment), equipment repairs, transportation other than travel expenses, presentation of the research achievements (fees for contributing to the publications of academic societies, website creation, and preparation of pamphlets to publicize the research achievements, costs of PR activities disseminating research achievements to the general public, including children and students and other matters), experiment waste disposal cost, the cost of "buyout", *i.e.* someone taking over a part of the duties (other than research) of the Principal Investigator or Co-Investigator(s). (Refer to the Application Procedures for Grants-in-Aid for Scientific Research)) item by item.

#### o Necessity of Travel Expenses, Personnel Cost/Honoraria, and Miscellaneous Expenses

Please enter the necessity and the basis of the estimation of travel expenses, personnel cost/honoraria, and miscellaneous expenses you entered. In any fiscal year of this research, if the "travel expenses" or "personnel cost/honoraria" exceeds 90% of the total research expenses in any FY of the research period and there is expenses which accounts for a particularly large proportion in "miscellaneous expenses," you must enter the necessity of the expenditure to carry out the research.

#### "The Status of Application and Acquisition of Research Grants" input screen

## 1. The Status of Application and Acquisition of Research Grants (\*This content will not be converted to the PDF file.)

The entries will be referred to by the review committee in order to ensure that the grant status would not constitute a case of "unreasonable duplication and/or excessive concentration in the grant allocation" so that the proposed research project can be duly carried out in parallel with other projects. Principal Investigator should input and confirm each of the following information up to the time of current application such as (1) research grant application(s) in the review process, (2) research grant(s) adopted and to be delivered, and (3) other activities.

- This research project is entered at the head of "(1) research grant application(s) in the review process".
- Not only KAKENHI but also other competitive research funds (including foreign ones) (\*) should be entered in "(1) research grant application(s) in the review process" and "(2) research grant(s) adopted and to be delivered".
  - (\*) The Integrated Innovation Strategy 2020 states that "Regarding the acceptance of funds from foreign countries, we [the Government of Japan] will make information disclosure of the situation, etc. as a requirement at the time of a research funds application." In response, starting from the FY2021 call for proposals, it is clearly stated that applicants submitting KAKENHI grant applications must declare any foreign research funds in "The Status of Application and Acquisition of Research Grants" column in the Research Proposal Document. Enter all domestic and foreign competitive research funds as well as any research funding, including subsidies from private foundations, funds for contract research and joint research in the review process and/or adopted and to be delivered.

Note the following points about joint research, etc. with a non-disclosure agreement will be handled.

- For the time being, you can submit without entering the name of the partner institution and the amount of research expenses accepted, if it is difficult to submit due to unavoidable circumstances such as when it is difficult to submit based on the contents of the confidentiality agreement that has already been concluded, etc.
  - And it should also be noted that when concluding a confidentiality agreement, etc. in the future, it is assumed that only necessary information may be submitted when applying for competitive research funds. Provided, if the parties to the agreement mutually agree on the scope of information to be kept confidential and reasonable grounds for such confidentiality (e.g., in case such information is materially important to corporate strategy and is deemed extremely confidential), the agreement can be formulated to prohibit the submission of such confidential information.
- (\*)The submitted information may be shared among the funding agencies and related ministries as well as information that has not been subject to a confidentiality agreement, but even in this case, the information will be shared only with those who have confidentiality obligations.
- There is no need to enter the fundamental research grants that are allocated so that research activities, etc. can carry out as duties within the research institution to which the researcher belongs in "(1) research grant application(s) in the review process" or "(2) research grant(s) adopted and to be delivered". The effort of the research activities and so on that utilize such grants is included in "(3) other activities". Moreover, the effort in the research project supported by a KAKENHI in which the researcher participates as Research Collaborator is included in "(3) other activities".
- If the applicant is a Research Fellowship for Young Scientists (SPD/PD/RPD/CPD/DC) and plan to receive a Grant-in-Aid for JSPS Fellows in FY2024, please enter it in "(2) research grant(s) adopted and to be delivered". Moreover, please do not enter the Grant-in-Aid that is paid monthly by JSPS (research implementation costs).

• As for the research proposal submission in the fiscal year previous to the final fiscal year of the research period of an on-going research project, do not enter expected amounts of the said on-going research project on which the new application is based in the "(2) research grant(s) adopted and to be delivered".

In the detail column of "(1) research grant application(s) in the review process" and "(2) research grant(s) adopted and to be delivered", the data input column is displayed by pushing the necessary number of "Add" button on the left side of the input screen. For data entry fields that you do not use (if you have entered but do not use it or if you did not enter at all), please delete the data entry field by pressing the "Delete" button on the left side.

#### o "Role in this Project"

Please select "PI" if the role of the researcher is a Principal Investigator or select "Co-I" if the role of the researcher is a Co-Investigator.

- o "Funding Scheme, Grant Category (Funding Organization)"
  In case of KAKENHI, please select the research category. For cases other than KAKENHI, please select "Other"
  and enter the name of the research grant and the name of the funding organization in the lower row.
- "Research Period"Please enter the research period.
- "Title of Proposed Research Project"
   Please enter the title of proposed research project.
- "Name of Principal Investigator"
   If applicant select "Co-I" in the column of Role in the Project, please enter the name of the Principal Investigator (or equivalent) of the research subject.
- o "Research Expenditure for FY2024 (Research Expenditure for the whole period) (Unit: thousand yen)"

  Enter the amount of direct expense of research expenditure to be received and used by him/herself in FY2024 (items under application is the applied amount) in the upper row, and at the same time enter the total amount (planned amount) to be used by him/herself during the whole period in the lower row.

If applicant select "Co-I" in the column of Role in the Project, please enter the amount of allotment (planned amount) to be received and used by him/herself in FY2024 in the upper row, and at the same time enter the total amount of allotment (planned amount) to be used by him/herself during the whole period in the lower row. (Please enter "0" if contributions are not distributed in the respective column.)

#### o "Effort Percentage in FY2024 (%)"

Based on 100% of the total working hours for "(1) research grant application(s) in the review process", (2) research grant(s) adopted and to be delivered" and "(3) other activities" to be entered in this column, please enter the allocation rate (%) of the time required for conducting activities, etc. The "total working hours" does not mean time

spent only on research activities, but entire actual working time, including time spent on educational activities and other activities.

In KAKENHI, please enter "-" (hyphen) if applicant enter a research category (such as Specially Promoted Research) that can be duplicated but not adopted in duplicate.

In addition, when conducting research by the competitive research funds, please be sure to enter the effort related to the research activity. When the research project for which the current application is being made is selected, the applicant will be requested to confirm the effort anew at that time and to perform the procedure of formal application for grant delivery. If the effort is changed at that time, it is necessary to correct the effort it e-Rad before formal application for grant delivery.

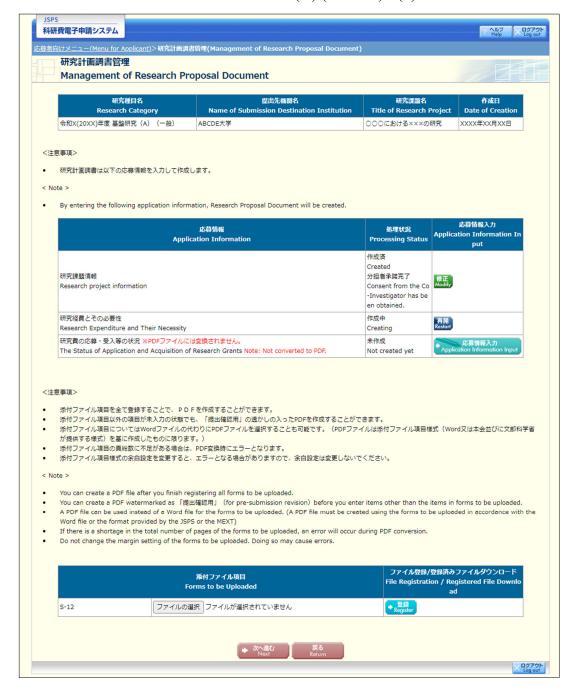

o "Distinction of the research contents and reason for submission of this KAKENHI application in addition to the other projects, and other relevant information"

Please explicitly enter the items focusing on the research grant application(s) in the review process or research grant(s) adopted and to be delivered, distinction of the research contents, and reason for submission of this KAKENHI application in addition to the other projects of the research project.

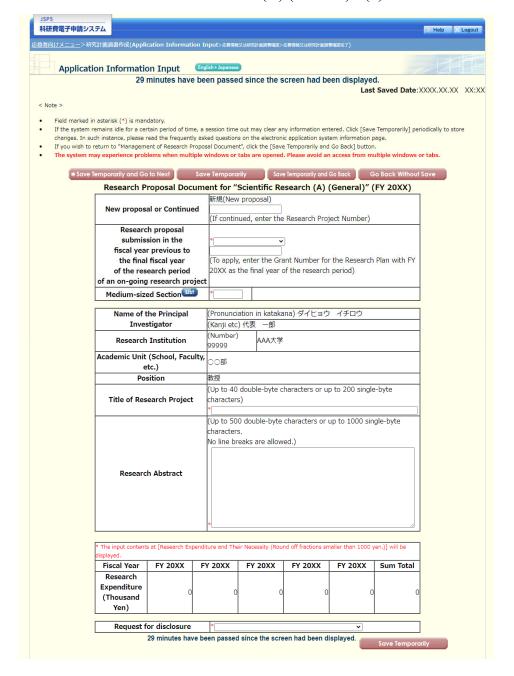

In addition, enter the affiliated institution and title/position in submitting or accepting the research project. You must enter the affiliated institutions and titles/positions for each and all of the projects, even if they are the same as the affiliated institution and your title/position under which you are submitting this application.

If applicant is a Principal Investigator of KAKENHI, please enter the total amount of direct expense for the whole research period including the shared amount to the Co-Investigators in this column.

#### Scientific Research (A) (General) - (1)

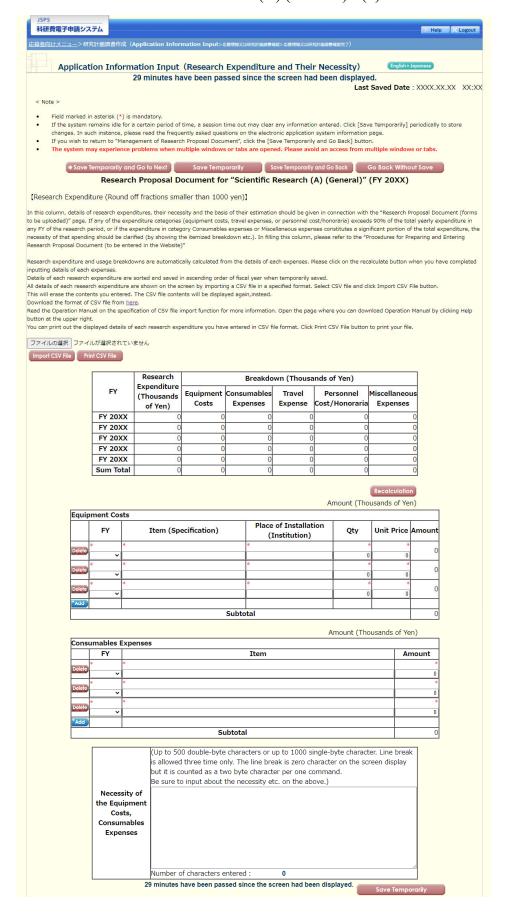

#### Scientific Research (A) (General) - (2)

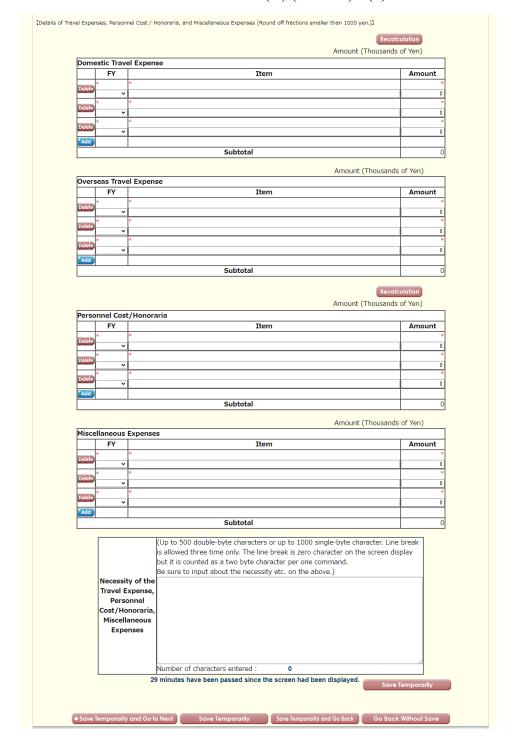

#### Scientific Research (A) (General) - (3)

#### [Project Members List (Principal Investigator and Co-Investigator)] Click [Add] button if you add Co-Investigator(s) (Co-I(s)). Note: Click [Add] on the left-hand side of the window to insert additional Project Members List fields. Click Delete on the left-hand side of each field to delete unused fields (if any field is not used or no longer required). Enter the researcher number of the Co-Investigator and click on the [Search] button, his/her information will be displayed, and click [OK] button. Since the Co-Investigator may belong to more than one research institution, please ask the Co-Investigator at first to confirm which affiliation he/she wishes to list for The consent both from Co-Investigator him/herself and his/her research institution should be given on the electronic application system to list him/her on the project members as a Co-Investigator. project immines as a Connessigator. To make a request for Co-Investigator, check the checkbox at "Request" in the "Status of Consent" row and save it temporarily. The researcher registered in the field is provisionally requested to participate in the research project as a Co-Investigator. Check the checkbox again to confirm that you want to request him/her to participate in the research project. (In addition, please contact him/her that you had made the Co-Investigator request on the system.) Once the consent by each Co- investigator is obtained, the term "Return Back" will be displayed in the Status of Consent column of the Co- Investigator. In case pressing the [Save Temporarily] after checking the checkbox at "Return Back" in the Status of Consent column of the Co-Investigator, the status goes back to the status of "The consent from Co-Investigator has not yet been confirmed" and the Co-Investigator is able to correct the input information such as efforts again. Should the registered contents by the Co-Investigators be corrected, please make sure to check. (And also always inform the Co-Investigator that the "Return Back" has been commanded.) If you want to update the affiliation information of Co-Investigator, click [Search] button of Co-Investigators Researcher Number, confirm the displayed his/her information, and then click [OK] button. Note that the status of consent will be changed into "Request" when you update the affiliation information of Co-Investigator. You have to follow the process of obtaining consent from Co-Investigators once again. Regardless the entry of the consent from the Co-Investigator (including the research institutions to which the Co-Investigator belongs), pressing the [Delete] button enables to delete the frame for the data input. Please take note that you have to follow the same procedure from the beginning, in case you request the identical researcher to become a Co-Investigator again after the [Delete] of the frame above completed. You cannot register the researcher, whose status of consent is "Dissented by the Co-Investigator" or "Dissented by the Institution", as a Co-Investigator to the project members. Press [Delete] button on the left hand side of that column and delete the frame into which the data is being entered. When you request the researchers to become a Co-Investigator.] When you request the researchers to become a Co-Investigator, your official request should be based on the high probability in obtaining the consent from the Co-Investigator-to-be after surely confirming the following items with the researchers. ©For this research project, the Co-Investigator has to bear responsibility for the implementation of the research project in cooperation with the Principal Investigator. @As well as the Co-Investigator understand and comply with both the KAKENHI supplementary conditions (funding conditions) and the terms stipulated in the (a), (b) and (c) below, and to receive a share of KAKENHI from the Principal Investigator and use it properly. )The Co-Investigator has to recognize that citizens have placed trust in scientific research and that KAKENHI are funded with their tax, and you the have to use KAKENHI in a proper and efficient way and refrain from committing research misconduct during my research. #### [Project Members List (Principal Investigator and Co-Investigator)]

- Click [Add] button if you add Co-Investigator(s) (Co-I(s)).
- Note: Click [Add] on the left-hand side of the window to insert additional Project Members List fields. Click Delete on the left-hand side of each field to delete unused fields (if any field is not used or no longer required).
- Enter the researcher number of the Co-Investigator and click on the [Search] button, his/her information will be displayed, and click [OK] button. Since the Co-Investigator may belong to more than one research institution, please ask the Co-Investigator at first to confirm which affiliation he/she wishes to list for the application.
- The consent both from Co-Investigator him/herself and his/her research institution should be given on the electronic application system to list him/her on the
  project members as a Co-Investigator.
- To make a request for Co-Investigators, check the checkbox at "Request" in the "Status of Consent" row and save it temporarily. The researcher registered in the field is provisionally requested to participate in the research project as a Co-Investigator. Check the checkbox again to confirm that you want to request him/her to participate in the research project. (In addition, please contact him/her that you had made the Co-Investigator request on the system.)
- Once the consent by each Co- investigator is obtained, the term "Return Back" will be displayed in the Status of Consent column of the Co- Investigator. In
  case pressing the [Save Temporarily] after checking the checkbox at "Return Back" in the Status of Consent column of the Co-Investigator, the status goes
  back to the status of "The consent from Co-Investigator has not yet been confirmed" and the Co-Investigator is able to correct the input information such as
  efforts again. Should the registered contents by the Co-Investigators be corrected, please make sure to check. (And also always inform the Co-Investigator
  that the "Return Back" has been commanded.)
- If you want to update the affiliation information of Co-Investigator, click [Search] button of Co-Investigators Researcher Number, confirm the displayed his/her
  information, and then click [OK] button. Note that the status of consent will be changed into "Request" when you update the affiliation information of CoInvestigator. You have to follow the process of obtaining consent from Co-Investigators once again.
- Regardless the entry of the consent from the Co-Investigator (including the research institutions to which the Co-Investigator belongs), pressing the [Delete] button enables to delete the frame for the data input. Please take note that you have to follow the same procedure from the beginning, in case you request the identical researcher to become a Co-Investigator again after the [Delete] of the frame above completed.
- You cannot register the researcher, whose status of consent is "Dissented by the Co-Investigator" or "Dissented by the Institution", as a Co-Investigator to the
  project members. Press [Delete] button on the left hand side of that column and delete the frame into which the data is being entered.

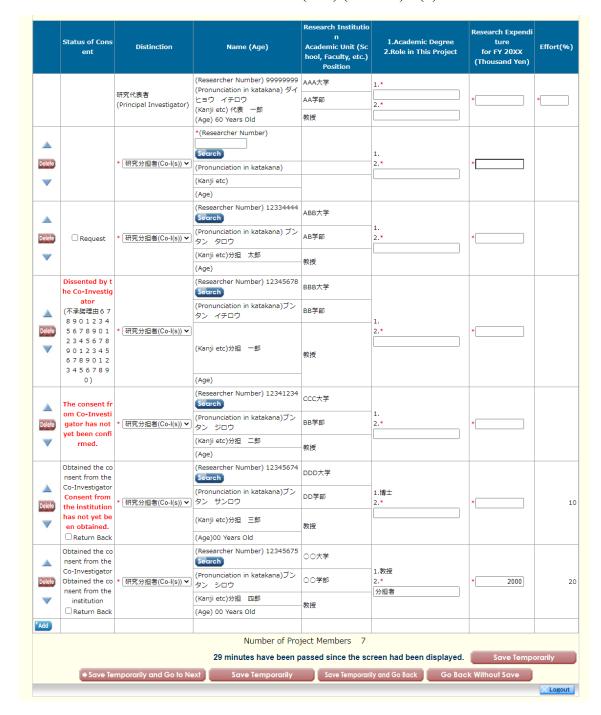

[When you request the researchers to become a Co-Investigator]

• When you request the researchers to become a Co-Investigator, your official request should be based on the high probability in obtaining the consent from the Co-Investigator-to-be after surely confirming the following items with the researchers.

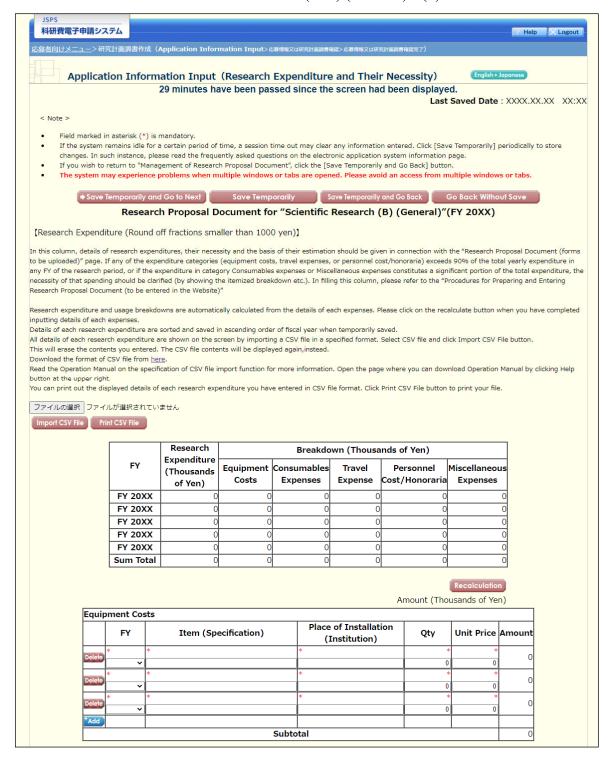

①For this research project, the Co-Investigator has to bear responsibility for the implementation of the research project in cooperation with the Principal Investigator.
②As well as the Co-Investigator understand and comply with both the KAKENHI supplementary conditions (funding conditions) and the terms stipulated in the (a), (b) and (c) below, and to receive a share of KAKENHI from the Principal Investigator and use it properly.

- (a) The Co-Investigator has to recognize that citizens have placed trust in scientific research and that KAKENHI are funded with their tax, and you therefore have to use KAKENHI in a proper and efficient way and refrain from committing research misconduct during my research.
- (b)The Co-Investigator has to fulfil the requirement for the research ethics education coursework either by reading a textbook such as "For the Sound Development of Science" The Attitude of a Conscientious Scientist -" ("For the Sound Development of Science" Editorial Committee on JSPS), by taking an elearning course such as the "e-Learning Course on Research Ethics [el. CoRE] or "APRIN e-learning program (eAPRIN)", or by participating in the research ethics education course conducted at his/her institution based on the "Guidelines for Responding to Misconduct in Research" (Adopted August 26, 2014 by the MEXT), prior to the formal application for grant delivery (or, in case the grant has already been delivered, by the time the "application for approval of change for the Co-Investigator" is submitted by the Principal Investigator to JSPS).
- (c)The Co-Investigator has to understand thoroughly and confirm on what the researchers should consider, in conducting of their researches, from amongst the contents of both the statement "Code of Conduct for Scientists -Revised Version-" by the Science Council of Japan and the booklet "For the Sound Development of Science -The Attitude of a Conscientious Scientist-" by the JSPS, by the time of the formal application for grant delivery of the concerned research project. (Or, by the time when the "application for approval of change of the Co-Investigator" is to be submitted to the JSPS by the Principal Investigator, in case the official grant decision thereof has been already made.)

#### Challenging Research (Pioneering) - (1)

#### Challenging Research (Pioneering) - (2)

### Challenging Research (Pioneering) - (3)

[Project Members List (Principal Investigator and Co-Investigator)]

- Click [Add] button if you add Co-Investigator(s) (Co-I(s)).
- Note: Click [Add] on the left-hand side of the window to insert additional Project Members List fields. Click Delete on the left-hand side of each field to delete
- unused fields (if any field is not used or no longer required).

  Enter the researcher number of the Co-Investigator and click on the [Search] button, his/her information will be displayed, and click [OK] button. Since the Co-Investigator may belong to more than one research institution, please ask the Co-Investigator at first to confirm which affiliation he/she wishes to list for
- The consent both from Co-Investigator him/herself and his/her research institution should be given on the electronic application system to list him/her on the project members as a Co-Investigator.
  To make a request for Co-Investigators, check the checkbox at "Request" in the "Status of Consent" row and save it temporarily. The researcher registered in
- the field is provisionally requested to participate in the research project as a Co-Investigator. Check the checkbox again to confirm that you want to request him/her to participate in the research project. (In addition, please contact him/her that you had made the Co-Investigator request on the system.)

  Once the consent by each Co- investigator is obtained, the term "Return Back" will be displayed in the Status of Consent column of the Co- Investigator. In
- case pressing the [Save Temporarily] after checking the checkbox at "Return Back" in the Status of Consent column of the Co-Investigator, the status goes back to the status of "The consent from Co-Investigator has not yet been confirmed" and the Co-Investigator is able to correct the input information such as efforts again. Should the registered contents by the Co-Investigators be corrected, please make sure to check. (And also always inform the Co-Investigator
- that the "Return Back" has been commanded.)
  If you want to update the affiliation information of Co-Investigator, click [Search] button of Co-Investigators Researcher Number, confirm the displayed his/her information, and then click [OK] button. Note that the status of consent will be changed into "Request" when you update the affiliation information of Co-Investigator. You have to follow the process of obtaining consent from Co-Investigators once again.
- Regardless the entry of the consent from the Co-Investigator (including the research institutions to which the Co-Investigator belongs), pressing the [Delete] button enables to delete the frame for the data input. Please take note that you have to follow the same procedure from the beginning, in case you request the identical researcher to become a Co-Investigator again after the [Delete] of the frame above completed.
- You cannot register the researcher, whose status of consent is "Dissented by the Co-Investigator" or "Dissented by the Institution", as a Co-Investigator to the project members. Press [Delete] button on the left hand side of that column and delete the frame into which the data is being entered.

[When you request the researchers to become a Co-Investigator]

When you request the researchers to become a Co-Investigator, your official request should be based on the high probability in obtaining the consent from the Co-Investigator-to-be after surely confirming the following items with the researchers.

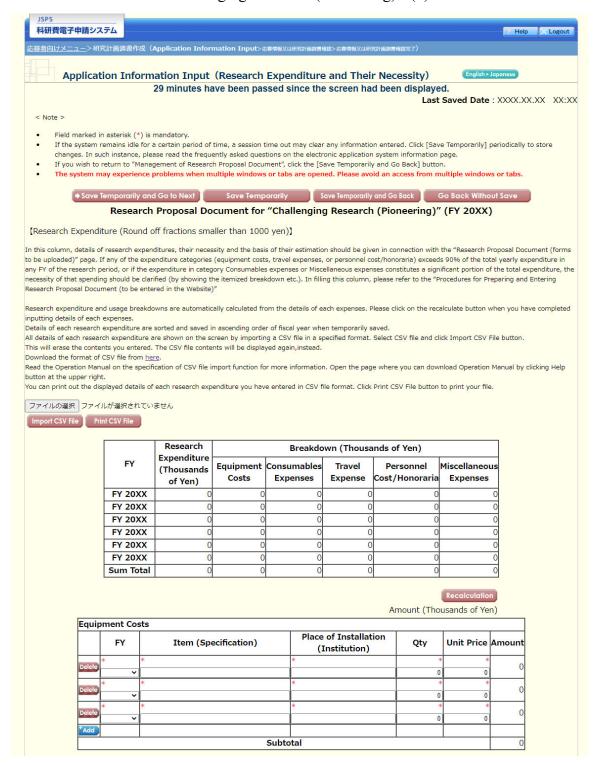

②As well as the Co-Investigator understand and comply with both the KAKENHI supplementary conditions (funding conditions) and the terms stipulated in the (a), (b) and (c) below, and to receive a share of KAKENHI from the Principal Investigator and use it properly.

- (a)The Co-Investigator has to recognize that citizens have placed trust in scientific research and that KAKENHI are funded with their tax, and you therefore ave to use KAKENHI in a proper and efficient way and refrain from committing research misconduct during my research
- (b)The Co-Investigator has to fulfil the requirement for the research ethics education coursework either by reading a textbook such as "For the Sound Development of Science - The Attitude of a Conscientious Scientist -" ("For the Sound Development of Science" Editorial Committee on JSPS), by taking an e-Learning course such as the "e-Learning Course on Research Ethics [eL CORE] or "APRIN e-learning program (eAPRIN)", or by participating in the research ethics education course conducted at his/her institution based on the "Cuidelines for Responding to Misconduct in Research" (Adopted August 26, 2014 by the MEXT), prior to the formal application for grant delivery (or, in case the grant has already been delivered, by the time the "application for approval of change for the Co-Investigator" is submitted by the Principal Investigator to JSPS).
- (c)The Co-Investigator has to understand thoroughly and confirm on what the researchers should consider, in conducting of their res contents of both the statement "Code of Conduct for Scientists -Revised Version-" by the Science Council of Japan and the booklet "For the Sound
  Development of Science -The Attitude of a Conscientious Scientists-" by the JSPS, by the time of the formal application for grant delivery of the concerned research project. (Or, by the time when the "application for approval of change of the Co-Investigator" is to be submitted to the JSPS by the Principal Investigator, in case the official grant decision thereof has been already made.)

(Project Members List (Principal Investigator and Co-Investigator)

- Click [Add] button if you add Co-Investigator(s) (Co-I(s)).
- Note: Click [Add] on the left-hand side of the window to insert additional Project Members List fields. Click Delete on the left-hand side of each field to delete unused fields (if any field is not used or no longer required).
- Enter the researcher number of the Co-Investigator and click on the [Search] button, his/her information will be displayed, and click [OK] button. Since the
  Co-Investigator may belong to more than one research institution, please ask the Co-Investigator at first to confirm which affiliation he/she wishes to list for
  the application.
- The consent both from Co-Investigator him/herself and his/her research institution should be given on the electronic application system to list him/her on the
  project members as a Co-Investigator.
- To make a request for Co-Investigators, check the checkbox at "Request" in the "Status of Consent" row and save it temporarily. The researcher registered in
  the field is provisionally requested to participate in the research project as a Co-Investigator. Check the checkbox again to confirm that you want to request
  him/her to participate in the research project. (In addition, please contact him/her that you had made the Co-Investigator request on the system.)
- Once the consent by each Co- investigator is obtained, the term "Return Back" will be displayed in the Status of Consent column of the Co- Investigator. In
  case pressing the [Save Temporarily] after checking the checkbox at "Return Back" in the Status of Consent column of the Co-Investigator, the status goes
  back to the status of "The consent from Co- Investigator has not yet been confirmed" and the Co-Investigator is able to correct the input information such as
  efforts again. Should the registered contents by the Co-Investigators be corrected, please make sure to check. (And also always inform the Co-Investigator
  that the "Return Back" has been commanded.)
- If you want to update the affiliation information of Co-Investigator, click [Search] button of Co-Investigators Researcher Number, confirm the displayed his/her
  information, and then click [OK] button.Note that the status of consent will be changed into "Request" when you update the affiliation information of CoInvestigator. You have to follow the process of obtaining consent from Co-Investigators once again.
- Regardless the entry of the consent from the Co-Investigator (including the research institutions to which the Co-Investigator belongs), pressing the [Delete] button enables to delete the frame for the data input. Please take note that you have to follow the same procedure from the beginning, in case you request the identical researchers to become a Co-Investigator, each after the Intelete In the frame above completed.
- the identical researcher to become a Co-Investigator again after the [Delete] of the frame above completed.

  You cannot register the researcher, whose status of consent is "Dissented by the Co-Investigator" or "Dissented by the Institution", as a Co-Investigator to the project members. Press [Delete] button on the left hand side of that column and delete the frame into which the data is being entered.

[When you request the researchers to become a Co-Investigator]

 When you request the researchers to become a Co-Investigator, your official request should be based on the high probability in obtaining the consent from the Co-Investigator-to-be after surely confirming the following items with the researchers.

©For this research project, the Co-Investigator has to bear responsibility for the implementation of the research project in cooperation with the Principal Investigator.

®As well as the Co-Investigator understand and comply with both the KAKENHI supplementary conditions (funding conditions) and the terms stipulated in the (a), (b) and (c) below, and to receive a share of KAKENHI from the Principal Investigator and use it properly.

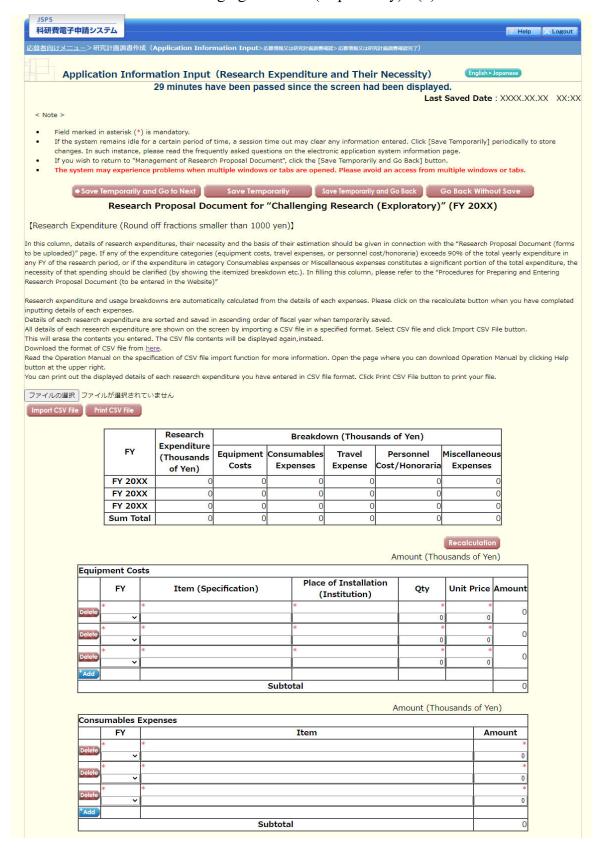

- (a) The Co-Investigator has to recognize that citizens have placed trust in scientific research and that KAKENHI are funded with their tax, and you therefore have to use KAKENHI in a proper and efficient way and refrain from committing research misconduct during my research.
- (b)The Co-Investigator has to fulfil the requirement for the research ethics education coursework either by reading a textbook such as "For the Sound Development of Science". The Attitude of a Conscientious Scientist: " ("For the Sound Development of Science" Editorial Committee on JSPS), by taking an e-Learning course such as the "e-Learning Course on Research Ethics [eL CORE] or "APRIN e-learning program (eAPRIN)", or by participating in the research ethics education course conducted at his/her institution based on the "Guidelines for Responding to Misconduct in Research" (Adopted August 26, 2014 by the MEXT), prior to the formal application for grant delivery (or, in case the grant has already been delivered, by the time the "application for approval of change for the Co-Investigator" is submixed by the principal Investigator to 1SCS).
- change for the Co-Investigator" is submitted by the Principal Investigator to JSPS).

  (c)The Co-Investigator has to understand thoroughly and confirm on what the researchers should consider, in conducting of their researches, from amongst the contents of both the statement "Code of Conduct for Scientists -Revised Version." by the Science Council of Japan and the booklet "For the Sound Development of Science -The Attitude of a Conscientious Scientist-" by the JSPS, by the time of the formal application for grant delivery of the concerned research project. (or, by the time when the "application for approval of change of the Co-Investigator" is to be submitted to the JSPS by the Principal Investigator, in case the official grant decision thereof has been already made.)
