- Lecture title (講演題目): (in English) Primate research
(in Japanese) _____

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

This lecture focused on what primatology is, and why it is particularly interesting to study nonhuman primates. I talked specifically about the field and laboratory methods that I use to investigate primate social relationships. I also talked about the climate and living conditions at the field sites. Finally, I mentioned what it takes to become a primatologist and ways for the students to find out if primatology is something for them.
