- Lecture title (講演題目): (in English) The chemistry inside your body.

(in Japanese) あなたの体内の化学

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

Firstly I introduced myself and where I come from (Australia). I told them a few things about Australia. I also told them why I was now in Japan. I then talked about why I decided to study science at university, and in particular, Biochemistry. As part of the lecture I showed a short video with excellent graphics which explained Biochemistry in an exciting way. Following that I explained to them what Biochemistry is about and more specifically talked about my research at Toyama University on cancer metastasis and testing plant extracts on cells and mice. This included some of the equipment and techniques we use in this research. At the end of the lecture the students asked me questions. A small group of students stayed back after the lecture to chat and ask further questions.
