- Lecture title (講演題目): (in English) Primate research

(in Japanese)

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

My lecture focused on what primatology is, and why it is particularly interesting to study non-human primates. I talked generally about the procedure of doing research, and I also talked specifically about the field and laboratory methods that I use to investigate primate social relationships. I also talked about the climate and living conditions at the field sites. Finally, I mentioned what it takes to become a primatologist and ways for the students to find out if primatology is something for them.
