- Lecture summary (講演概要): Please summary your lecture 200-500 words.

I first introduced myself and my country with its culture, pointing out the differences and similarities between Japan and Switzerland. After that, I mentioned why I became a scientist and why I decided to do what I do. Finally, I gave an introduction into my project at riken which involves the direct reprogramming of fibroblasts into different neuronal subtypes and the analysis of the transcriptional regulatory network underlying this process. I also pointed out why it is very important to learn english and be international in order to be a scientist.
