- Lecture title (講演題目): (in English) Science Dialogue Program

(in Japanese)

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

I divided my lecture into two parts. Firstly, I talked about my research career and work: schooling, education, learning of foreign languages, working at Institute of World Economics, application for a JSPS fellowship, research work at Ritsumeikan University. Secondly, I introduced my home country, Hungary. I touched upon the following topics: geography, history, culture, music, sport, Hungarian inventors/Nobel laureates.

When I talked about my research work I tried to explain the main facts on the East Asian economic integration and regionalism simply. I spoke about the production networks of transnational corporations in East Asia and shortly touched upon mega FTAs in East Asia (Regional Comprehensive Economic Partnership (RCEP), Trans-Pacific Partnership (TPP)). And I especially put emphasis on Japan's economic role and interests in East Asia.
