(in Japanese) VR の未来

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

In this lecture, I introduced the United Kingdom and my story in becoming a researcher in virtual liquid crystal science, and now media technology. I discussed and showed pictures of liquid crystal science. I then discussed research undertaken at Keio University regarding multi-modal sense and mixed-sense modalities and their application in virtual reality, including Crystal Vibes. Finally, I discussed the past, present and potential future of media technology, including virtual reality, and discussed what skills will be needed in the future to research such technologies.
