- Lecture summary (講演概要): Please summary your lecture 200-500 words.

The lecture aimed to place Japan in an global context. I showed how my research in Japanese history originated in my interest in broader problems that are shared by people everywhere in the world. I pointed out, for example, that Japan is becoming increasingly multicultural, just like other societies. I then explained how historical studies can help us understand the world we live and that being able to think historically is fundamental for a responsible, critical individual.

◆Other noteworthy information (その他特筆すべき事項):

The event was very well organized and the students appeared to be keen listeners. I enjoyed talking to them before and after the lecture.
