- Lecture title (講演題目): (in English) Science Dialogue Program – Artificial Intelligence

(in Japanese)

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

The presentation highlighted my career route in becoming an engineering and my interested in artificial intelligence. I spoke a bit about Europe and my country, UK. I spent quite some time on explaining my motivations for becoming an engineering scientist and experiences working at Todai. In particular, I answered the questions: what options do I have once I finish school? Why should I become an engineer? Why should I study AI? I hope the students were able to gain some international understanding. I also encouraged the students to try to travel the world and see different cultures while they are at university and emphasised on making non-Japanese friends.
