(in Japanese) N/A

- Lecture summary (講演概要): Please summary your lecture 200-500 words.

I presented research on *how* we can speak. In other words, how we can get from thinking about something to saying something. Mostly, we do that by looking at the time it takes to read aloud words and pictures presented on a computer screen but we also use special equipment called EEG to see people's brain waves and from these waves try to understand what happens in our brain before we even open our mouth to say something.
