

FY2013 Re-Inventing Japan Project (AIMS Program)

– Ritsumeikan University-

【Project name】(Adopted year: FY 2013, AIMS Programme)

Global PBL Program for Innovative Mind and Intelligence

【Aim of project, Ideals of Global Human Resource on the project】

To promote collaboration in undergraduate level with membership universities of AIMS and provide students with capability to think in engineering, business & civilian, and designing minds combined.

【Summary of project】

Membership universities and Ritsumeikan will offer lectures on target issues either via Video on Demand or satellite.

■ Method for establishing quality assurance of student exchange program

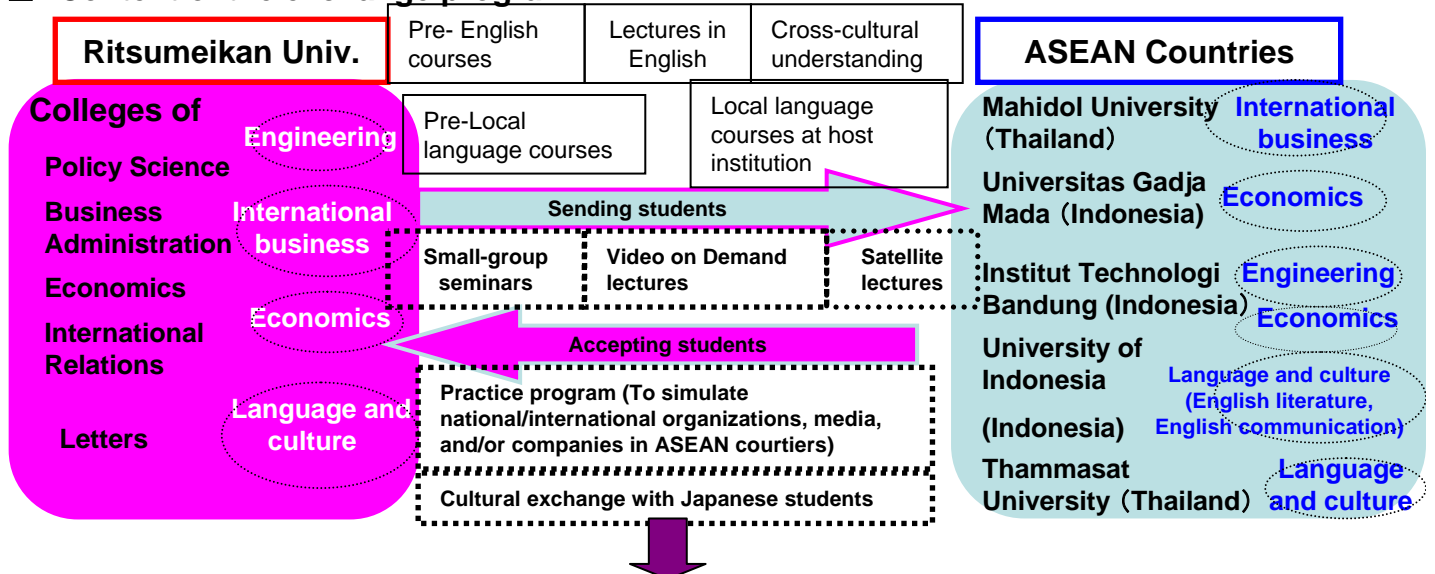

-Academic record control and credit transfer system through UCTS of UMAP

We will further utilize this system which has been proved successful through the past experiences with our exchange partners.

- Establishing manual for quality assurance

By establishing “Education reform guideline for colleges”, we guarantee ideal classroom environment and annual maximum number of the credits allowed to register, careful course selection, and transparency by checking syllabus in advance for the courses held in English.

■ Content of the exchange program

For deeper understanding of the relation between ASEAN countries and Japan
Improvement of research and problem-solution skills

■ Mobility of students for exchange programs
